### STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2025

---

#### Introduction

The Directors present their Strategic Report for the year ended 31 March 2025

#### Business review

For the year ended 31 March 2025, the Company recorded turnover of £86,146,000 (2024 £74,569,000) reflecting improved consulting utilisation and rates achieved in the period, particularly in the Insurance division. Gross profit increased to £25,475,000 (2024 £25,445,000), reflecting this higher revenue, but offset significantly by increased use of lower margin external contractors to deliver client engagements. Profit after tax was £4,834,000 (2024 £6,284,000), after deducting administration expenses, interest expenses and the tax charge for the year. The Company's average headcount reduced to 251 in the year (2024 268). Trade receivables increased to £16,612,000 compared to £10,097,000 in 2024, reflecting an increase in debtor days from 49 days to 70 days. The Directors have no concerns about the recoverability of these receivables. Cash and cash equivalents increased to £1,948,000 (2024 £1,686,000), while net current assets reduced to £8,809,000 (2024 9,918,000). During the year, no ordinary dividend was paid (2024 £8,000,000).

Finally, on 4 September 2024 the Company acquired 100% of the share capital of Bankside Financial Solutions Consulting Limited. Refer to note 12 to the financial statements for further details.

#### Key performance indicators

The Directors review the management accounts on a regular basis and compare performance against budget. Utilisation, rates and costs are also monitored to assess profitability.

The Company monitors cash flow, liquidity and the recovery of trade receivables primarily through regular reviews of working capital.

#### Principal risks and uncertainties

The principal risks and uncertainties faced by the Company are outlined below:

- **Competitors** – Risk that a competitor or new entrant may be able to achieve success and win work from the Company's existing clients. Less mature or more specialist propositions, which the Company chooses to develop, may present less of a competitive advantage.
- **Macro** – Risk that wider market, economic, commercial and financial risks can impact the Company's ability to service clients, their demand for consultancy and technology services and, therefore, the Company's own performance and financial position.
- **Quality of service** – Failure to maintain quality of service on client delivery engagements.
- **People** – Risk of failure to attract, incentivise and retain the best people with the right capabilities across all propositions, levels and geographies. A failure to undertake effective succession planning for key roles could also adversely increase this risk and impact performance.
- **Business strategy** – Risk that the Company responds inadequately to changing market factors, including technological advancements, and strategic growth opportunities, including acquisitions. The success of the Group depends on continuing to develop a proposition that best serves its clients.
- **Security** – Risk of cyber-attacks, security breaches and data mishandling, leading to consequent risks to client data, loss of integrity or availability of core data.

### STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2025

---

#### Section 172 statement

Under Section 172(1) of the Companies Act 2006, a director of a company must act in the way that they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to

- the likely consequence of any decision in the long term,
- the interests of the Company's employees,
- the need to foster the Company's business relationships with suppliers, customers and others,
- the impact of the Company's operations on the community and the environment,
- the desirability of the Company maintaining a reputation for high standards of business conduct, and
- the need to act fairly as between members of the Company

The following disclosure describes how the Directors have had regard to the matters set out in Section 172(1)(a) to (f) and forms the Directors' statement under Section 414CZA of the Companies Act 2006

#### Engagement with key stakeholders

The Directors consider the Company's key stakeholders to be its employees, clients and the communities in which the Company operates. The Directors also recognise other stakeholder groups including suppliers, industry bodies and competitors. Engaging effectively with all these stakeholder groups strengthens the Company's business relationships and decision making and, therefore, supports its long-term success.

**Employees** – the Company recognises that attracting, retaining and developing talent is critical to its success. It is committed to providing a rewarding workplace with a strong, inclusive and meritocratic culture. Engagement with employees takes place through feedback frameworks, mentoring, training opportunities, competitive remuneration, promotion opportunities and internal networks.

**Clients** – the Company's success depends on helping clients address their challenges and capitalise on opportunities. It focuses on building long-term relationships supported by senior level engagement, regular satisfaction monitoring, ongoing dialogue and roundtable discussions, and the sharing of market and industry insights.

**Communities** – supporting community development reflects the Company's values and growth objectives. The Company seeks to create a positive social and environmental impact through responsible business practices and engagement with local organisations.

### DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2025

---

The Directors present their report and the financial statements for the year ended 31 March 2025

#### Principal activity

The Company is a subsidiary undertaking within the group headed by Actium Topco (UK) Limited. Its principal activity is the provision of consulting and related services to clients in the asset management, wealth management and insurance industries.

#### Results and dividends

The profit for the year, after taxation, amounted to £4,834,000 (2024: £6,284,000).

The results for the year are set out in the Strategic Report. The Directors consider the current state of affairs of the Company to be satisfactory.

During the year, no ordinary dividend was paid (2024: £8,000,000).

The Directors have not recommended the payment of a final dividend (2024: £NIL).

#### Directors

The directors who served during the year were:

GA Cook  
SLP Peacock  
S McNulty (resigned 27 March 2025)  
JC Paton (resigned 30 June 2025)

#### Political contributions

The Company made no political donations and incurred no political expenditure during the year (2024: £NIL).

#### Environmental matters

In accordance with the Companies Act 2006, the Company has taken the exemption from including disclosures in relation to environmental matters (including those required under the Streamlined Energy and Carbon Reporting Regulations). These disclosures are included in the Strategic Report of the consolidated accounts for the period ended 31 March 2025 of Actium Topco (UK) Limited, the Company's ultimate parent company. That report is publicly available from Companies House.

---

#### Future developments

While the market environment continues to be competitive, the Company is well positioned to effectively pursue opportunities that support its long-term strategic goals. The long-term structural drivers of demand including growth in assets and insurance policies, regulatory demand, cost pressures, client and societal expectations, and technology breakthroughs continue to present significant growth opportunities for the Company in the medium to long term.

The Directors believe the Company is well-positioned to embrace these opportunities as they arise, with a specialist, experienced, and market-leading team available to deliver value to our clients across our divisions.

---

**DIRECTORS' REPORT (CONTINUED)  
FOR THE YEAR ENDED 31 MARCH 2025**

---

**Engagement with employees**

Details of how the Company engages with employees are set out in the Section 172 statement in the Strategic Report

The Company is committed to ensuring equality of opportunity for all employees and applicants. Full and fair consideration is given to all applications of employment from disabled persons. Appropriate arrangements are made for all disabled person, including those who have become disabled during their employment. The Company is committed to the training and development of disabled persons and ensuring they have the access to the same opportunities as other employees.

**Engagement with suppliers, customers and others**

The Directors recognise the importance of fostering strong relationships with suppliers, customers and others in a business relationship with the Company. The Directors have regard to these relationships in strategic decision making. During the year, this included maintaining regular open communication and engagement with key stakeholders to ensure continuity of supply and to support customer needs.

### **DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 MARCH 2025**

---

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

#### 1. General information

Alpha Financial Markets Consulting UK Limited (the "Company") is a company limited by shares, domiciled and registered in the UK. The registered number is 04710715 and the registered address is 60 Gresham Street, London, EC2V 7BB, United Kingdom.

#### 2. Accounting policies

##### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

##### 2.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, access to intercompany funding from other group entities, cash liquidity and access to the group's existing borrowing facilities. No material uncertainties regarding the Company's ability to continue as a going concern were noted, as it continues to trade profitably and holds a net current assets position. The Company also has access to further funding, were this to be required, from the group's revolving credit facility.

After careful consideration, the Directors have a reasonable expectation that the Company's existing resources are adequate to meet its requirements over the going concern period. On this basis, the Directors have adopted the going concern basis in preparing the financial statements.

##### 2.3 Change in balance sheet presentation

In the current year, the Company has adopted the Companies Act 2006 "Format 1" balance sheet presentation, in place of the IAS 1 format applied in the prior year. The comparative balance sheet has been re-presented on the same basis for consistency and comparability. This change is presentational only and has no impact on the Company's financial position, performance, or cash flows.

##### 2.4 Change in statement of comprehensive income presentation

In the current year, the Company has amended the presentation of its statement of comprehensive income. Rechargeable expenses, previously shown as a deduction from turnover to arrive at a "net fee income" subtotal, are now included within cost of sales. As a result, the "net fee income" subtotal has been removed. The comparative information has been re-presented on a consistent basis. This change is presentational only and does not affect reported turnover or profit.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

## 2 Accounting policies (continued)

### 2.5 Financial Reporting Standard 101 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions under FRS 101

- the requirements of paragraphs 45(b) and 46-52 of IFRS 2 Share-based payment
- the requirements of paragraphs 62, B64(d), B64(e), B64(g), B64(h), B64(j) to B64(m), B64(n)(ii), B64(o)(ii), B64(p), B64(q)(ii), B66 and B67 of IFRS 3 Business Combinations
- the requirements of paragraph 33(c) of IFRS 5 Non Current Assets Held For Sale and Discontinued Operations
- the requirement of paragraph 24(b) of IFRS 6 Exploration for and Evaluation of Mineral Resources to disclose the operating and investing cash flows arising from the exploration for and evaluation of mineral resources
- the requirements of IFRS 7 Financial Instruments Disclosures
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement
- the requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers
- the requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 90, 91 and 93 of IFRS 16 Leases. The requirements of paragraph 58 of IFRS 16, provided that the disclosure of details in indebtedness relating to amounts payable after 5 years required by company law is presented separately for lease liabilities and other liabilities, and in total
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of
  - paragraph 79(a)(iv) of IAS 1,
  - paragraph 73(e) of IAS 16 Property, Plant and Equipment,
  - paragraph 118(e) of IAS 38 Intangible Assets,
  - paragraphs 76 and 79(d) of IAS 40 Investment Property, and
  - paragraph 50 of IAS 41 Agriculture
- the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements
- the requirements of IAS 7 Statement of Cash Flows
- ~~the requirements of paragraph 74A(b) of IAS 16~~
- the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member
- the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.
- the requirements of paragraph 88C and 88D of IAS 12 Income Taxes.

This information is included in the consolidated financial statements of Actium Topco (UK) Limited as at 31 March 2025 and these financial statements may be obtained from Companies House

---

## ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

#### 2 Accounting policies (continued)

##### 2.6 Exemption from preparing consolidated financial statements

The Company is a parent company that is also a subsidiary included in the consolidated financial statements of a larger group by a parent undertaking established under the law of any part of the United Kingdom and is therefore exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006

##### 2.7 Foreign currency translation

###### Functional and presentation currency

*The Company's functional and presentational currency is GBP*

###### Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of Comprehensive Income within 'finance income or costs'. All other foreign exchange gains and losses are presented in profit or loss within 'other operating income'

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

#### 2. Accounting policies (continued)

##### 2.8 Turnover

###### *Recognition of turnover and client billing*

Turnover consists of the value of work executed for clients during the year and expenses recharged, exclusive of VAT. Turnover is classified into net fee income and recharged expenses. Net fee income represents the Company's personnel, subcontractor and related expertise and services sold to clients. Recharged expenses are the recharge of costs incidental to fulfilling contracts including flights, subsistence and accommodation on which nil or negligible margin is earned by the Company.

The Company delivers services that have no alternative use to the Company (advice to clients, reports, etc.) as the services are specifically tailored to clients' projects and scope of work. The significant majority of the Company's turnover is contracted on a time and materials basis, where the performance obligation is to provide consultancy resources at agreed day rates. For such contracts, turnover is recognised over time, as consultant days worked are delivered. Modifications or extensions to such projects are recognised as services are delivered. Significant extensions, where the scope or price of the contract increases, are treated as separate contracts. Contracts accounted for on a time and materials basis are billed incrementally, typically monthly, for incurred time and materials.

Turnover recognition for fixed-fee projects is based on the satisfaction of performance obligations in line with contractual project milestones, depending on the nature of the performance obligations for the project. Material scope changes are managed via a new agreement with the client. Fixed-fee projects are typically billed in accordance with the nature of the performance obligations when a right to payment crystallises.

For most fixed-fee milestone projects, turnover is recognised at a point in time upon delivery of each performance obligation and these projects are typically billed as contractual milestones are delivered and the right to payment exists. Contractual milestones are only treated as separate performance obligations by the Company when they are distinct from the other elements in the contract and could provide a benefit to the customer without further work being completed. In limited circumstances, turnover from fixed fee milestone projects is recognised over time where the Company has an enforceable right to payment for performance completed to date, before the contractual milestone has been fully delivered.

Turnover is wholly attributable to the principal activities of the Company. For all turnover types, payment is typically due between 30 and 60 days after the invoice date or receipt of invoice, depending on the client and geography.

###### *Recognition of contract receivables*

Activity performance recognised as turnover in excess of invoices raised results in the recognition of a contract receivable, which is included within accrued income, up to the value of the relevant project delivery milestone, where applicable. On invoicing, the contract receivable is reclassified to trade receivables.

###### *Recognition of contract liabilities*

Where amounts have been invoiced in excess of work performed and turnover recognised, the excess is a contract liability and is included within deferred income, valued in line with the nature of the project and related performance obligations as described above and recognised in future periods.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2025

---

**2. Accounting policies (continued)**

**2.9 Leases**

Each of the Company's leases is assessed individually and may include options to extend or break early. Contracts can include both lease and non-lease components, but only the lease components are accounted for under IFRS 16.

Upon commencement of a lease, the Company recognises a lease liability at the present value of future lease payments, discounted using the interest rate implicit in the lease or, if not available, the Company's incremental borrowing rate. The incremental borrowing rate reflects the cost the Company would incur to borrow funds for a similar asset. Lease liabilities include payments beyond the non-cancellable period where it is reasonably certain the Company will exercise an extension option or not exercise an early break clause. Lease payments are split between finance expenses and a reduction in the lease liability, with finance costs recognised in the consolidated statement of comprehensive income over the lease term.

Right-of-use assets are initially measured as equal to the lease liability, adjusted for lease incentives and initial direct costs. Right-of-use assets are subsequently depreciated on a straight-line basis over the shorter of the asset's useful life or the lease term.

The Company utilises the exemption available in IFRS 16 for short-term leases (less than 12 months in duration) and low-value leases (for assets worth less than \$5,000 when new). No lease liability or right-of-use asset is recognised for these leases, with lease expenses instead being recognised in administration costs on a straight-line basis over the lease term.

**2.10 Interest income**

Interest income is recognised in profit or loss using the effective interest method.

**2.11 Finance costs**

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

**2.12 Pensions**

**Defined contribution pension plan**

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the Company in independently administered funds.

---

## ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

#### 2. Accounting policies (continued)

##### 2.13 Share-based payments

The share-based payment charge recognised in these financial statements relates to awards previously granted by the Company's former ultimate parent, Alpha Financial Markets Consulting plc. No share-based payment charge has been recognised in relation to the current ultimate parent, Actium Topco (UK) Limited.

The cost of share-based payments, where employees receive remuneration in the form of shares or share options, is recognised as an employee benefit expense in the statement of comprehensive income.

*The total expense is recognised over the vesting period, based on the fair value of the awards at the grant date (excluding non-market-based vesting conditions). At each reporting date, the estimate of the number of awards expected to vest is revised to reflect current expectations regarding non-market vesting conditions. The cumulative impact of any revisions is recognised in profit or loss in the period of change.*

Fair value is determined using a binomial option pricing model, incorporating management's best estimates of factors such as non-transferability, absence of dividends prior to vesting, and exercise restrictions.

Upon vesting, the ultimate parent company satisfies exercised options either by issuing new ordinary shares or transferring existing shares held in its employee benefit trust to the employee.

Where share-based payments relate to employees of the Company, an intra-group recharge is recognised to reflect the benefit received by the Company from the employees' services. The Company is the receiving entity, recognising the share-based payment charge in profit or loss, the ultimate parent company is the settling entity, recognising the corresponding credit in equity.

An accrual for employers' social security costs arising on share-based payments is recognised over the vesting period, in line with the recognition of the associated share-based payment charge. The liability reflects the estimated amount payable on exercise, based on the fair value of the underlying shares.

---

## ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

#### 2. Accounting policies (continued)

##### 2.14 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss, except in relation to share-based payments where the amount of the tax deduction exceeds the amount of the related cumulative share-based payment charge, in which case it is recognised in equity.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits, and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

##### 2.15 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

|                       |                |
|-----------------------|----------------|
| Fixtures and fittings | - 3 to 4 years |
| Computer equipment    | - 3 years      |

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

Right-of-use assets are included within tangible fixed assets. Refer to the above accounting policy on leases for further information.

---

**ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2025**

---

**2. Accounting policies (continued)**

**2.16 Valuation of investments**

Investments in subsidiaries are measured at cost less accumulated impairment.

**2.17 Debtors**

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

**2.18 Cash and cash equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

**2.19 Creditors**

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

**2.20 Financial instruments**

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below.

*Financial assets and financial liabilities are initially measured at fair value.*

**Financial assets**

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets.

---

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2025

---

2. Accounting policies (continued)

2.20 Financial instruments (continued)

**Fair value through profit or loss**

All of the Company's financial assets other than those which meet the criteria to be measured at amortised cost are subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses being recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset.

**Debt instruments at amortised cost**

Debt instruments are subsequently measured at amortised cost where they are financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling the financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Amortised cost is calculated using the effective interest method and represents the amount measured at initial recognition less repayments of principal plus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

**Impairment of financial assets**

The Company recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised or at FVOCI. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company always recognises lifetime ECL for trade receivables and amounts due on contracts with customers. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

**Financial liabilities**

**Fair value through profit or loss**

Financial liabilities are classified as at fair value through profit or loss, when the financial liability is held for trading, or is designated as at fair value through profit or loss. This designation may be made if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise, or the financial liability forms part of a group of financial instruments which is managed and its performance is evaluated on a fair value basis, or the financial liability forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at fair value through profit or loss. Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

---

## ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

## 2. Accounting policies (continued)

### 2.20 Financial instruments (continued)

#### At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability.

### 2.21 Deferred and contingent acquisition consideration

Deferred and contingent consideration may arise on acquisitions. Deferred consideration arises when settlement of part of the consideration relating to the acquisition falls due after the acquisition date. Contingent consideration arises where consideration is dependent on specified future events or conditions, typically linked to the financial performance of the business acquired.

Deferred and contingent consideration is discounted to present value and recognised as capital investment cost at fair value when the consideration is not employment-linked. Alternatively, where amounts payable are dependent upon future employment, these amounts are recognised as a remuneration expense over the deferral or contingent performance period.

In circumstances where there is an option to settle in the form of cash or a variable number of shares, the group recognises a financial liability for the fair value of the discounted consideration. Where consideration is settled in a fixed number of shares, the consideration is classified as equity, it is not remeasured, and settlement is accounted for within equity.

Subsequent to the acquisition date, amounts relating to deferred consideration are measured at amortised cost. Contingent consideration liabilities are recognised at fair value through profit or loss.

At each balance sheet date, the fair value of contingent consideration is measured using level 3 inputs in accordance with the fair value hierarchy. These calculations contain estimation uncertainty, as they relate to unknown future cash flows. The key inputs associated with the valuation of these liabilities include the value and timing of expected future earn-out payments (based on the expected financial performance of the relevant businesses), and an appropriate risk-adjusted discount rate to apply to these future cash flows.

Changes in the carrying amount of deferred and contingent consideration liabilities associated with the passage of time are recognised as a finance cost. Other changes to the fair value of the liabilities resulting from changes in the underlying assumptions are recognised in administration costs.

### 2.22 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

---

## ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

---

#### 2. Accounting policies (continued)

##### 2.23 Impact of new international reporting standards, amendments and interpretations

There are no new accounting standards or interpretations that have become effective in the current financial year that have had a material effect on the Company's financial statements. Similarly, no new standards or interpretations have had a material effect on the comparative period presented.

#### 3. Judgements in applying accounting policies and key sources of estimation uncertainty

The preparation of financial information in accordance with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses.

##### *Judgements*

The Directors have made one judgement, excluding those involving estimations, in the process of applying the Company's accounting policies that are considered to have a significant effect on the amounts recognised in the financial statements for the year ending 31 March 2025.

##### *Turnover recognition*

Turnover is the Company's most significant caption in the statement of comprehensive income. Whilst the majority of the Company's turnover is contracted on a time and materials basis, the Company also has some fixed-price milestone contracts. The recognition of turnover on such contracts involves consideration of the detailed contractual terms against the requirements of IFRS 15. The key judgements include assessment of whether turnover should be recognised over time or at a point in time, and whether the performance obligations under the contract have been met at the balance sheet date, to best reflect the transfer of services through the life of each contract.

##### *Estimates*

The Directors have identified one key estimate that is considered to have a significant risk of a material adjustment within the next financial year which is the estimation of contingent acquisition consideration liabilities.

##### *Contingent acquisition consideration liabilities*

The estimation of contingent acquisition consideration liabilities is a major source of estimation uncertainty, as the contingent consideration payable in each case is linked to the future performance of the acquiree. To determine the fair value of contingent acquisition consideration liabilities, the Directors assess the expected future performance of the acquired businesses against earn-out targets, and discount the expected earn-out payments back to present value using an appropriate risk-adjusted discount rate. These estimates could change over time based on a change in the actual or expected performance of the acquired businesses over the earn-out period.

The fair value of contingent consideration in relation to the acquisition of Bankside was £12.9m at 31 March 2025. The fair value of the contingent consideration was determined by discounting the expected future payments, which are based on management's expectations of how the acquired business will perform against the earn-out targets, using a risk-adjusted discount rate of 21.0%. The Directors estimate that the undiscounted amount of contingent consideration that may become payable could reasonably range between £14.3m and £18.8m.

---

ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED

---

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2025

---

3. Judgements in applying accounting policies (continued)

The Directors have also identified one area where there was deemed to be estimation uncertainty in the prior year as below

*Share-based payments*

As described in the accounting policy on employee benefits above, the Company receives recharged expenses relating to a share option scheme operated by the Company's previous ultimate parent

In the year, all outstanding share options under these schemes vested and were exercised upon the acquisition of the Company's ultimate parent. Therefore there was no significant estimation uncertainty associated with the share-based payment charge in the year, however in the prior year, this was a significant estimate as described below

In the calculation of the prior year share-based payments charge at a group level, management has used estimation. In determining the share-based payment expense and the associated social security tax thereon, management has considered several internal and external factors to judge the probability that management and employee share incentives may vest and to assess the fair value of share options at the date of grant. Such assumptions involve estimating future performance, share price and other factors. The fair value calculations have been assessed by a third-party expert for reasonableness in the prior year

4. Turnover

An analysis of turnover by class of business is as follows

|                     | 2025<br>£000 | 2024<br>£000 |
|---------------------|--------------|--------------|
| Consulting services | 86,146       | 74,569       |

5. Operating profit

The operating profit is stated after charging

---

|                                       | 2025<br>£000 | 2024<br>£000 |
|---------------------------------------|--------------|--------------|
| Depreciation of tangible fixed assets | 184          | 195          |
| Depreciation of right-of-use assets   | 962          | 1,013        |
| Exchange differences                  | 108          | (193)        |
| Share-based payments                  | 4,298        | 4,044        |
| Defined contribution pension cost     | 1,196        | 1,191        |

---

---

**ALPHA FINANCIAL MARKETS CONSULTING UK LIMITED**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2025**

---

**6. Auditors' remuneration**

During the year, the Company obtained the following services from the Company's auditors and their associates

|                                                                                                                 | 2025<br>£000 | 2024<br>£000 |
|-----------------------------------------------------------------------------------------------------------------|--------------|--------------|
| Fees payable to the Company's auditors and their associates for the audit of the Company's financial statements | -            | 138          |

The Company has taken advantage of the exemption not to disclose amounts paid for non-audit services as these are disclosed in the consolidated accounts of the parent Company

**7. Employees**

Staff costs were as follows

|                                       | 2025<br>£000  | 2024<br>£000  |
|---------------------------------------|---------------|---------------|
| Wages and salaries                    | 34,610        | 32,147        |
| Social security costs                 | 3,690         | 3,686         |
| Cost of defined contribution scheme   | 1,196         | 1,191         |
| <b>Total staff costs for the year</b> | <b>39,496</b> | <b>37,024</b> |

The average monthly number of employees, during the year was as follows

|                | 2025<br>No. | 2024<br>No. |
|----------------|-------------|-------------|
| Administrative | 7           | 6           |
| Consulting     | 244         | 262         |
|                | <b>251</b>  | <b>268</b>  |

At the year end, no (2024 5,500,176) share options over the equity in Alpha Financial Markets Consulting plc, the former ultimate parent company, remained outstanding to the Company's management and employees. All remaining unvested options that had been granted under these schemes vested, and all outstanding options were exercised in the year upon the acquisition of Alpha Financial Markets Consulting plc by Bridgepoint. During the year, a total of 4,768,151 (2024 233,045) share options were exercised. The weighted average share price at the date of these exercises was £5.05. The Company has incurred a charge in 2025 of £4,299,000 (2024 £4,044,000) relating to these schemes under IFRS 2 for employees and management that provide direct services to the Company, of which £482,000 (2024 £587,000) relates to associated social security taxes in the current year.

On 4 September 2024, the Company acquired 100% of the issued share capital of Bankside Financial Solutions Consulting Limited ("Bankside"), a UK based technology consulting firm providing specialist data integration services to the asset and wealth management sector. The combination of the group's leading consulting capability for the asset and wealth management sector and the Bankside team's deep expertise and toolsets will enhance the group's competitive end-to-end offering for clients through large-scale and complex technical implementations.

The total consideration recognised at the acquisition date was £17.8m, consisting of £6.3m of cash paid on completion and £11.5m representing the fair value of contingent consideration. The maximum amount of contingent consideration payable under the acquisition is £18.8m. The contingent consideration is linked to the financial performance of the business and may be settled in multiple instalments across four years, with the final payment due in August 2028. Refer to note 3 for further details.

|                               | <b>1,962</b>         | <b>2,871</b>         |

**19 Share capital**

|                                                      | <b>2025<br/>£000</b> | <b>2024<br/>£000</b> |
|------------------------------------------------------|----------------------|----------------------|
| <b>Allotted, called up and fully paid</b>            |                      |                      |
| 275,000 (2024 275,000) Ordinary shares of £1.00 each | <b>275</b>           | <b>275</b>           |

**20. Related party transactions**

The Company has not engaged in any transactions with any related parties other than with wholly owned subsidiaries within the Actium Topco (UK) Limited group, and remuneration of the Company's key management personnel. These transactions have not been disclosed as the Company has taken advantage of exemptions under FRS 101.

**21. Post balance sheet events**

After the balance sheet date, in November 2025, the Company entered into an agreement to accelerate the payment of part of the deferred and contingent consideration relating to the acquisition of Bankside. This reflected the strong trading performance of the business since acquisition. Under the terms of this agreement, the Company made a payment of £11.6 million towards the liability.

This event is considered a non-adjusting subsequent event, as it relates to conditions that arose after the balance sheet date. Accordingly, no adjustment has been made to the amounts recognised in the financial statements as at 31 March 2025.
