Directors' report

The Directors present their report and the audited financial statements for the year ended 31 March 2022.

Principal activities

The principal activity of the Company continued to be the provision of specialist consultancy services, including Simcorp-related implementation and advisory support, to the asset management industry.

Results and dividend

For the year ended 31 March 2022 (FY 22¹), the Company recorded a revenue of £3,649,000 (FY 21: £4,145,000). Gross profit margin reduced to 29.1% (FY 21: 33.9%) and profit after tax reduced to £191,000 (FY 21: £658,000). Lower profitability is the result of a lower utilisation levels across a broadly consistent consultant team size in the year, in addition to higher discretionary costs as spend returns to pre COVID-19 levels. Trade receivables reduced to £302,000 compared to £328,000 in FY 21, as cash collection continues to be strong. The Directors believe the business is well placed with a good pipeline of opportunities going into the next financial year.

After deducting taxation, a £191,000 profit was transferred to reserves (FY 21: £658,000). The Directors have not recommended the payment of a final dividend (FY 21: £nil).

Directors

The Directors who held office during the year were as follows:

ENB Fraser
JC Paton
N Fienberg
S McNulty
GA Cook (appointed 30 June 2022)
AJS Cheema (resigned 6 June 2022)
AP Ritchie (resigned 30 June 2022)
S McDermott (resigned 15 July 2022)

Political contributions

The Company made no political donations or incurred any political expenditure during the year.

Employee involvement

Attracting, retaining, and developing the very best people in the industry is integral to the Company's culture and ongoing success. The Company is committed to providing a highly rewarding place to work, and to maintaining a unique and inclusive culture that places people at the heart of the business. To achieve this, there is a strong emphasis on interaction, open communication and the exchange of proactive insights from the employee base.

Engagement with suppliers and customers

The Directors note the importance of fostering strong relationships with the Company's customers and suppliers through open communication and having regard for these relationships in strategic decisions made relating to the Company.

Disclosure of information to auditor

The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each Director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

By order of the Board.

John C Paton
Director

12 October 2022

¹ FY 22 is the financial year covering the 12 months to 31 March 2022. By comparison, FY 21 is the previous period covering the 12 months to 31 March 2021; FY 23 is the subsequent financial year covering the 12 months to 31 March 2023.

Statement of Directors' responsibilities in respect of the Directors' report and the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Group or the parent company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Directors' Report that complies with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report to the members of Axxsys Limited

Opinion

We have audited the financial statements of Axxsys Limited ("the Company") for the year ended 31 March 2022 which comprise the Profit and Loss account, Balance sheet, Statement of changes in Equity and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2022 and of its Profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Reading Board minutes.
- Considering remuneration incentive schemes and performance targets for management and Directors.
- Using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we perform procedures to address the risk of management override of controls and the risk of fraudulent revenue recognition, in particular the risk that revenue is recorded in the wrong period and the risk that management may be in a position to make inappropriate accounting entries, and the risk of bias in accounting estimates and judgements such as share-based payment assumptions.

We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries to test based on risk criteria and comparing the identified entries to supporting documentation. These included unusual pairings with a credit or debit to an account below EBITDA and unusual journals with a credit or debit entry to cash;
- Identifying revenue transactions to test based on unusual pairings with a credit or debit to revenue;
- Assessing significant accounting estimates for bias.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, and through discussion with the directors and other management (as required by auditing standards), and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: anti-bribery and employment law recognising the financial nature of the Company's activities. Auditing standards limit the required audit

Independent auditor's report to the members of Axxsys Limited (continued)

procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Directors' report

The directors are responsible for the directors' report. Our opinion on the financial statements does not cover this report and we do not express an audit opinion thereon.

Our responsibility is to read the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the directors' report;
- in our opinion the information given in this report for the financial year is consistent with the financial statements; and
- in our opinion this report has been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to take advantage of the small companies exemption from the requirement to prepare a strategic report.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 3, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes (forming part of the financial statements)

1 Accounting policies

Axxsys Limited (the "Company") is a Company limited by shares, domiciled and registered in the UK. The registered number is 04967647 and the registered address is New Broad Street House, 35 New Broad Street, London, United Kingdom, EC2M 1NH.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken. Further, in accordance with Section 414A(2) of the Companies Act 2006, the Company has taken the small company exemption from the requirement to prepare a strategic report.

The Company's parent undertaking, Alpha Financial Markets Consulting Plc, includes the Company in its consolidated financial statements. The consolidated financial statements of Alpha Financial Markets Consulting Plc are available to the public and may be obtained from 60 Gresham Street, London, EC2V 7BB.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- A cash flow statement and related notes;
- Comparative period reconciliations for share capital, tangible fixed assets, intangible assets and investment properties;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel; and
- Disclosures of transactions with a management entity that provides key management personnel services to the Company.

As the consolidated financial statements of Alpha Financial Markets Consulting Plc include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 Share-Based Payment in respect of Group settled share-based payments; and
- Certain disclosures required by IFRS 16 Leases in relation to disclosure of the Company's leasing activities.
- Certain disclosures required by IFRS 3 Business Combinations in respect of business combinations undertaken by the Company. The

accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

There are no judgements made by the Directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year.

1.1 Basis of preparation

These financial statements have been prepared under the historical cost basis, except for certain financial instruments that are measured at fair value.

The presentational currency of these financial statements and the functional currency of the Company is pounds sterling. All amounts in these financial statements have been rounded to the nearest £1,000, unless stated otherwise.

1.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, cash liquidity and existing undrawn borrowing facilities.

As at 31 March 2022, the Company held financial resources including cash balances of £583,000. The Company also has access, throughout the going concern period, to a revolving credit facility ("RCF") of £20.0m, through other Group companies, providing further liquidity.

The Company prepared cash flow forecasts covering the going concern period. The base case assumes trading performance over the forecast period in line with average revenue growth in recent years at similar margins, and additionally incorporates future cash flows related to payments due. The Directors considered the principal risks and mitigants and analysed a range of cash flow downside scenarios including a "reverse-stress test" scenario. This models the decline in sales that the Company would be able to absorb over the going concern period before utilising all of the existing cash reserves available. The Directors consider this scenario and the sequence of events that could lead to it to be remote, as it requires significant annualised revenue reductions compared to the base case, before modelling any mitigating actions, including cost reductions.

The Directors have considered the Company's performance, and new business pipeline, while also remaining cognisant of the potential macroeconomic uncertainty resulting from recent events in Ukraine, which the Directors do not consider to be a material uncertainty for going concern purposes.

After careful consideration of these scenarios, the Directors have a reasonable expectation that the Company's existing resources are adequate to meet its requirements over the going concern period. On this basis, the Directors consider that it is appropriate to adopt the going concern basis in preparing the financial statements.

1.3 Foreign currency

Transactions in foreign currencies are translated to the relevant entity's functional currency at the average foreign exchange rate in the month of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the average exchange rate in the month of the transaction and are not retranslated. Foreign exchange differences arising on translation to functional currency are recognised in administration expenses.

The revenues and expenses of foreign operations are translated to the Company's functional currency at the average foreign exchange rate in the month of the date of the transactions. The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to the Group's presentational currency, pound sterling, at foreign exchange rates ruling at the balance sheet date. Foreign exchange differences arising on retranslation of assets and liabilities relating to foreign operations are recognised in total comprehensive income. Exchange differences on translation of foreign operations may be reclassified subsequently to profit or loss when specific conditions are met.

Notes (continued)

1 Accounting policies (continued)

1.4 Financial instruments

The Company uses financial instruments comprising cash and cash equivalents, preference shares, loan notes and other short-term instruments, such as trade payables that arise from its operations. The main purpose of these financial instruments is to fund the Group's business strategy and working capital requirements.

Accounting policies in respect of financial instruments are outlined below.

Financial assets

Financial assets are initially measured at fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, transaction costs. The Company has not reclassified any financial assets subsequent to initial recognition as at the balance sheet date. Reclassification of classes of financial assets is accounted for prospectively in accordance with IFRS 9, where this is required. Any difference on reclassification from amortised cost to fair value through profit or loss is recognised in the profit and loss at the reclassification date.

Financial assets are assessed at each reporting date to determine a lifetime expected credit loss that reflects the credit risk associated with the portfolio of assets. A financial asset is impaired in line with the simplified approach under IFRS 9, which uses a lifetime expected loss allowance.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment, impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impairment asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of the impairment to decrease, the decrease in impairment loss is reversed through statement of comprehensive income.

Trade and other debtors

Trade and other debtors are recognised initially at fair value, equal to the transaction price, and subsequently measured at amortised cost less provision for impairment. The trade receivables balances recorded in the Company's statement of financial position are held until realised in cash.

Axxsys provides services to customers on credit terms with mainly arrears billing. Certain receivables may not be paid. The Company applies the IFRS 9 simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance for all trade receivables. To measure expected credit losses, trade receivables have been grouped based on shared credit characteristics and the days past due. The Company considers historical loss rates for each ageing category as a starting point for estimating the expected credit loss. This historical loss rate is subsequently adjusted for macro-economic and customer-specific factors of receivables within each ageing category. Characteristics considered by the Group for these purposes include: historical collection experience for each customer; the assessed liquidity of key customers within the receivables balance; and other relevant macro-economic factors in order to determine a reasonable and supportable assessment of the expected lifetime credit risk in the context of the overall year-end trade receivables due.

Amounts owed by Group undertakings

Amounts owed by Group undertakings are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of intercompany receivables is established using an expected credit loss model. The Company classifies all intercompany receivables that form a part of the normal trading cycle of the Company as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve month period from the balance sheet date. All other amounts owed by Group undertakings are considered as non-current assets. This represents a change in accounting policy in the year. All balances were considered current in the comparative period.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits and are recorded and subsequently measured at amortised cost in line with IFRS 9. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the cash flow statement only.

Financial liabilities

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term.

This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. As at 31 March 2022, the Company had no such financial liabilities.

Other financial liabilities held by the Group are recognised at amortised cost.

Trade and other creditors

Trade and other payables are initially recognised at fair value and are subsequently measured at amortised cost. Trade payables due within one year are not discounted.

Amounts owed to Group undertakings

Amounts owed to Group undertakings are recognised initially at fair value and subsequently measured at amortised cost.

1.5 Leases

The Company leases office premises in various jurisdictions. Leases are negotiated on an individual basis, and for a variety of terms over which rentals are fixed with break clauses and options to extend for a further period at the then prevailing market rate. The rental agreement to which IFRS 16 has been applied, spans 14 months. Contracts may contain both lease and non-lease components. Non-lease components are separately identifiable and excluded from the lease for the purpose of IFRS 16 implementation.

The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Measurement of lease liabilities

On initial recognition of a new lease, the lease liability is recognised as the present value of future payments, discounted using the incremental borrowing rate ("IBR"), unless the interest rate implicit to the lease is available for use.

Lease payments to be made subsequent to optional termination options have been included within the lease liability measurement, where it is reasonably certain that such options will not be exercised. Similarly, lease payments relating to extension options are only included wherein reasonable certainty has been achieved that these options will be exercised.

Notes (continued)

1 Accounting policies (continued)

1.5 Leases (continued)

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be easily determined, the IBR is applied, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

The Company accounts for lease payments by allocating them to a finance cost element and against the lease liability. The finance cost is charged to profit or loss over the lease period.

When the Company revises its estimate of the term of any lease (for example, if the probability of a lessee extension or termination option being exercised is re-assessed), the Company adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. In such cases, an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in profit or loss.

The Company has no material exposure to variable lease payments that qualify for accounting treatment under IFRS 16.

Measurement of right-of-use assets

The right-of-use asset for lease agreements entered into after transition date is measured on initial recognition as the amount equal to the lease liability on initial measurement, less any lease incentives, plus any initial direct costs. Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

1.6 Tangible fixed assets

All property, plant and equipment are stated at historical cost (or deemed historical cost) less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use.

Depreciation is provided on all property, plant and equipment at rates calculated to write each asset down to its estimated residual value on a straight-line basis at the following annual rates:

Computer equipment	3 years straight line
--------------------	-----------------------

1.7 Impairment (non-financial assets)

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value, less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purposes of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates independent cash inflows (the "cash-generating unit"); that is, cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses are allocated between the carrying amounts of other assets in the unit (or group of units) on a pro-rata basis as a reduction in the value of the asset.

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Impairment losses recognised in prior periods are assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Right-of-use assets relating to the Company's leasing activities are recognised on the balance sheet at an amount equal to the lease liability on initial measurement, less any lease incentives, plus any initial direct costs. Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. For further information refer to the "Leases" section above.

1.8 Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have a legal or constructive obligation to pay further amounts. Contributions to defined contribution schemes are charged to the statement of comprehensive income as they become payable in accordance with the rules of the scheme. Differences between contributions payable in the year and contributions paid are shown as either accruals or pre-payments in the statement of financial position.

1.9 Provisions

Provisions are distinct from other liabilities as there is uncertainty over the timing or amount of the cash outflow required to settle the liability. Provisions are measured at the present value of the expenditure expected to be required to settle the obligation. These are discounted to present value using an appropriate pre-tax discount rate, where the time value of money is material.

1.10 Revenue recognition

Recognition of revenue and client billing

Revenue consists of the value of work executed for clients during the year and expenses recharged, exclusive of VAT. Revenue is classified into net fee income and recharged expenses. Net fee income represents the Company's personnel, subcontractor and related expertise and services sold to clients. Recharged expenses is the recharge of costs incidental to fulfilling contracts including flights, subsistence and accommodation on which nil or negligible margin is earned by the Company.

Notes (continued)

1 Accounting policies (continued)

1.10 Revenue recognition (continued)

The Company delivers services that have no alternative use to Alpha (advice to clients, reports, etc) as the services are specifically tailored to clients' projects and scope of work. The significant majority of Alpha's revenue is contracted on a time and materials basis, where the performance obligation is to provide consultancy resources at agreed day rates. In such contracts, revenue is recognised over time, as the number of consultant days worked are delivered. Modifications or extensions to such projects are recognised as delivered. Significant extensions, where the scope or price of the contract increases, are treated as separate contracts. Contracts accounted for on a time and materials basis are billed incrementally, typically monthly, for incurred time and materials.

Revenue recognition for fixed fee projects is based on the actual service provided to the end of the reporting period as a proportion of total services to be provided either over time or in line with internally or externally identified project milestones, depending on the nature of the performance obligations for the project. Material scope changes are managed via a new agreement with the client. Fixed fee projects are typically billed in accordance with the nature of the performance obligations when a right to payment crystallises.

For fixed fee milestone projects, revenue is recognised at a point in time upon delivery of each performance obligation and these projects are billed as contractual milestones are delivered and the right to payment exists.

Revenue is wholly attributable to the principal activities of the Group. For all revenue types, payment is typically due between 30 and 60 days after the invoice date or receipt of invoice, depending on the client and geography.

Recognition of contract receivables

Activity performance recognised as revenue in excess of invoices raised are contract receivables and are included within accrued income, up to the value of the relevant project delivery milestone, where applicable. On invoicing, the contract receivable is reclassified to trade receivables.

Recognition of contract liabilities

Where amounts have been invoiced in excess of work performed and recognised, the excess is a contract liability and is included within deferred income and valued in line with the nature of the project and related performance obligations as described above and recognised in future periods.

1.11 Cost of sales

Cost of sales is defined by management as the direct costs associated with the generation of the Group's revenue, including staff payroll and contractor costs, subsistence and travel that are directly attributable to the delivery of services and supporting growth.

1.12 Expenses

Interest receivable and interest payable

Interest payable and similar expenses include interest payable, unwinding of the discount on provisions, and discount unwinding associated with leases within the scope of IFRS 16. Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method.

Dividend expense

Dividend expenses are recognised in the profit and loss account on the date the entity's right to pay the dividend is established.

1.13 Taxation

Taxation expense on the result for the period comprises current and deferred tax. Current and deferred tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable or receivable on the taxable income for the period, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities, and when they relate to taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

1.14 New accounting standards and interpretations

The following changes in accounting policies were applied by the Company in these financial statements for the year ended 31 March 2022. These included the adoption of new standards and interpretations described below.

The International Accounting Standards Board (IASB) and IFRS Interpretations Committee (IFRIC) have issued the following standards and interpretations which are now effective:

- Interest Rate Benchmark Reform – Phase 2 - (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16), effective from 1 January 2021;
- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16), effective from 1 January 2021;

The Directors reviewed the nature and effect of these new standards on the Company and noted no material impact on the financial statements for the year ended 31 March 2022.

The Directors have considered new standards and interpretations that have been issued but not yet been effective, however have applied the exemption not to disclose this information under FRS 101.

Notes (continued)

2 Revenue

	FY 22 £000	FY 21 £000
Rendering of services	3,648	4,145
Rechargeable expenses	1	-
	<u>3,649</u>	<u>4,145</u>
	 FY 22 £000	 FY 21 £000
<i>By activity</i>		
Management consulting	<u>3,649</u>	<u>4,145</u>

3 Auditor's remuneration

	FY 22 £000	FY 21 £000
Audit of these financial statements	<u>56</u>	<u>44</u>

Amounts receivable by the Company's auditor and its associates in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's parent, Alpha Financial Markets Consulting Plc.

4 Staff numbers and costs

The average number of persons employed by the Company (including Directors) during the year, analysed by category, was as follows:

	Number of employees FY 22	FY 21
Administrative	3	3
Sales	12	13
	<u>15</u>	<u>16</u>

The aggregate payroll costs of these persons were as follows:

	FY 22 £000	FY 21 £000
Wages and salaries	1,812	1,812
Social security costs	204	216
Contributions to defined contribution plans	45	47
	<u>2,061</u>	<u>2,075</u>

5 Director's remuneration

	FY 22 £000	FY 21 £000
Directors' remuneration ²	999	727
Company contributions to money purchase pension plan	9	-
	<u>1,008</u>	<u>727</u>
	 Number of Directors FY 22	 FY 21
Benefits are accruing to the following number of Directors under:		
Money purchase schemes (retirements)	1	-
Long term share incentive plan	1	-

² For FY 22, the methodology for determining directors' remuneration for the year has been modified to include the bonus accrued in respect of FY 22, instead of the bonus that was paid during the year. Directors' remuneration for FY 21 includes the bonus that was paid during the year and has not been restated.

Notes (continued)

5 Director's remuneration (continued)

The aggregate of remuneration and amounts receivable under Company long term incentive schemes of the highest paid Director was £444,000 (FY 21: £331,000).

Amounts paid or payable to the Company's Directors through the Company's parent undertakings have been excluded from the above disclosure and included within the disclosures of other Group companies, on the basis that their services are predominantly provided to the wider Group.

6 Finance income & expenses

Profit for the year	191	658
Total tax expense / (credit)	35	(3)
Profit excluding taxation	226	655
Tax using the UK corporation tax rate of 19%	43	125
Fixed asset differences	(2)	-
Reduction in tax rate on deferred tax balances	1	-
Non-deductible expenses	(10)	1
Adjustments in respect of prior periods	3	(3)
Group relief received	(33)	(126)
Payment/(receipt) for group relief	33	-
Total tax expense / (credit)	35	(3)

An increase in the UK corporation tax rate from 19% to 25% (effective 1 April 2023) was substantively enacted during the year on 24 May 2021. Once effective, this change would increase the Company's future current tax charge accordingly.

On 23 September 2022, the UK Government announced revised plans to hold the rate of UK corporation tax at 19%, cancelling the previous plans to increase the rate to 25% from 1 April 2023. This revised plan has not yet been substantively enacted and has no impact on the current or deferred tax charge in the year ended 31 March 2022.

10 Leases

(i) Amounts recognised in the statement of financial position

The balance sheet shows the following amounts relating to leases:

Right-of-use assets	Buildings £000
<i>Cost</i>	
At 1 April 2021	-
Additions	124
Disposals and other movements	-
At 31 March 2022	124
<i>Depreciation</i>	
At 1 April 2021	-
Charge for the period	(3)
Disposals	-
At 31 March 2022	(3)
Net book value at 31 March 2022	121
At 1 April 2021	-

Notes (continued)

10 Leases (continued)

A summary of the Company's lease liabilities as at 31 March 2022 is presented below:

	FY 22 £000	FY 21 £000
Due within 1 year	108	-
Due between 1 and 5 years	18	-
Due after 5 years	-	-
Total lease liabilities - undiscounted	126	-
Impact of discounting	(3)	-
Total Lease liabilities - discounted	123	-

(ii) Amounts recognised in the income statement

The income statement shows the following amounts relating to leases:

	FY 22 £000	FY 21 £000
Depreciation of right-of-use asset	3	-
Included in administration expenses	3	-
Interest expense on lease liabilities	2	-
Included in finance expenses	2	-

Total rental payments made in the year on all lease tenors amounted to £3,000 (FY 21: nil).

The Company has given consideration to any extension options and early termination options with reasonable certainty at the date of signing these financial statements, and these have been reflected within the lease liability where appropriate.

The Company had no income associated with sub-leasing arrangements, or gains/losses associated with sale-and-leaseback transactions in the year ended 31 March 2022.

11 Debtors

	FY 22 £000	FY 21 £000
Trade debtors	302	328
Amounts owed by Group undertakings	3,287	2,075
Other debtors	12	3
Prepayments and accrued income	34	64
	3,635	2,470

Amounts owed by Group undertakings are interest free and are repayable on demand.

Trade debtors are stated after an immaterial provision for expected credit losses in both the current and prior years.

Amounts owed by Group undertakings are interest free and are repayable on demand. The Company classifies all intercompany receivables that form a part of the normal trading cycle of the Company as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve-month period from the balance sheet date. All other amounts owed by Group undertakings are considered as current assets. Of a total of £3,287,000 (FY 21: £2,075,000) of amounts owed by Group undertakings, the Company recognised £3,287,000 (FY 21: £2,075,000) within current assets

Notes (continued)

12 Cash and cash equivalents

	FY 22 £000	FY 21 £000
Cash and cash equivalents	583	681
Balance as at 31 March 2022	<u>583</u>	<u>681</u>

13 Creditors: amounts falling due within one year

	FY 22 £000	FY 21 £000
Trade creditors	142	48
Amounts owed to Group undertakings	1,045	179
Taxation and social security	309	444
Accruals and deferred income	240	199
	<u>1,736</u>	<u>870</u>

Amounts owed to Group undertakings are either interest-bearing or non-interest-bearing depending on the type of the creditor relationship and local regulatory requirements. At the balance sheet date all of these balances are non-interest-bearing. All amounts owed to Group undertakings are repayable on demand.

Deferred income recognises contract liabilities arising from the Company's revenue generating activities relating to payments received in advance of performance delivered under a contract. These contract liabilities typically arise on short-term timing differences between performance obligations in some milestone or fixed fee contracts and their respective contracted payment schedules. The contract liability movement in the year represents these timing differences across contracts at each year end. As at 31 March 2022 there is an immaterial level of deferred income held on the Company's balance sheet, and movements in contract liabilities in the year were immaterial. All current deferred income is expected to be recognised through revenue within one year.

14 Deferred tax assets and liabilities

Recognised deferred tax assets and liabilities

Deferred tax assets and liabilities are attributable to the following:

	Assets		Liabilities		Net	
	FY 22 £000	FY 21 £000	FY 22 £000	FY 21 £000	FY 22 £000	FY 21 £000
Tangible fixed assets	-	-	5	6	5	6
Other	(1)	(1)	-	-	(1)	(1)
Net tax (assets)/liabilities	<u>(1)</u>	<u>(1)</u>	<u>5</u>	<u>6</u>	<u>4</u>	<u>5</u>

The Company has no unrecognised tax losses in addition to the deferred tax assets above (FY 21: £nil).

An increase in the UK corporation tax rate from 19% to 25% (effective 1 April 2023) was substantively enacted during the year on 24 May 2021. This rate has been reflected in the calculation of deferred tax assets and liabilities as at 31 March 2022.

On 23 September 2022, the UK Government announced revised plans to hold the rate of UK corporation tax at 19%, cancelling the previous plans to increase the rate to 25% from 1 April 2023. This revised plan has not yet been substantively enacted and has no impact on the current or deferred tax charge in the year ended 31 March 2022.
