Strategic report

Business review

For the year ended 31 March 2023 (FY 23¹), the Company recorded revenue of £4,099,000 (FY 22: £3,649,000). Gross profit margin increased to 38.3% (FY 22: 29.1%) and profit after tax increased to £543,000 (FY 22: £191,000). Increased profitability is the result of flat staff costs across a broadly consistent consultant team size in the year, while revenue growth has been driven by increased fee rates and a higher average utilisation as well as an increase in contracting revenue. Trade receivables reduced to £55,000 compared to £302,000 in FY 22, as cash collection continues to be strong. There are no concerns about the recoverability of receivables. The Directors consider the current state of affairs of the Company to be satisfactory.

During the year, an interim dividend of £1,000,000 (FY 22: £nil) was made to the Company's sole shareholder Alpha Financial Markets Consulting Group Limited, to facilitate the payment of the Group dividend made by the Company's ultimate parent, Alpha Financial Markets Consulting plc, to its shareholders. The Directors have not recommended the payment of a final dividend (FY 22: £nil).

Key performance indicators

The Directors monitor performance on a monthly basis using a range of financial and non-financial metrics. Working capital management a key indicator which is reviewed on a frequent basis to monitor cashflow, liquidity and the recovery of trade receivables.

Each month the Directors review the management accounts for each trading Group² undertaking and compare actual performance against budget. Costs, utilisation, and fee rates are also reviewed to monitor profitability.

Principal risks and uncertainties

The performance of the Company is subject to only limited risk in the short and medium term as the future pipeline of work is good. The Company continues to generate substantial cash after retaining a proportion of profits to fund increased working capital requirements resulting from growth. Management is mindful of the current macro uncertainty and recessionary environment, which include a lengthening sales cycle and higher levels of competition. Management continues to monitor the market and operate conservative cash management policies.

Future developments

Although the Company is facing continuing macro-economic uncertainty and some increased competition in the consulting market, the structural drivers that underpin growth and demand for the Company's services over the medium to long term remain strong. This, together with the Company's market-leading consulting talent and the growing number of client relationships, means the Company remains confident of further progress.

Section 172 statement

Under Section 172(1) of the Companies Act 2006, a director of a company must act in the way he or she considers, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- the likely consequence of any decision in the long term;
- the interests of the Company's employees;
- the need to foster the Company's business relationships with suppliers, customers and others;
- the impact of the Company's operations on the community and the environment;
- the desirability of the Company maintaining a reputation for high standards of business conduct; and
- the need to act fairly as between members of the Company.

The following disclosure describes how the Directors have had regard to the matters set out in Section 172(1)(a) to (f) and forms the Directors' statement under section 414CZA of the Companies Act 2006.

The Directors remain committed to engaging with all of the Company's stakeholders and considering their interests when making any strategic decisions.

¹ FY 23 is the financial year covering the 12 months to 31 March 2023. By comparison, FY 22 is the previous financial year covering the 12 months to 31 March 2022; FY 24 is the subsequent financial year covering the 12 months to 31 March 2024.

² Group refers to the Company's ultimate parent, Alpha Financial Markets Consulting plc, and its subsidiaries.

Strategic report (continued)

Engagement with key stakeholders

The Board considers its key stakeholders to be its employees, clients and the communities in which the Company operates. The Board also recognises other stakeholder groups including vendors and suppliers, industry bodies and competitors with which Alpha works or associates in the marketplace. Engaging effectively with these stakeholders strengthens the Company's business relationships and decision making and therefore supports its long-term success.

Employees

Attracting, retaining and developing the best talent is essential to the Company's business success. The Company is committed to providing a highly rewarding place to work, and to maintaining a strong, meritocratic and inclusive culture that recognises the importance of our people and encourages open communication. To achieve this, there is a strong emphasis on interaction, open communication and the exchange of proactive insights from the employee base. Employee feedback has always been a significant component of that picture. An inclusive environment for all employees is encouraged through the prevalence of the Company's Diversity & Inclusion programme, and employees are incentivised to engage further with the wider objectives of the business through a generous profit share scheme, and a share incentive plan available to senior management.

Clients

The Company's success is based on delivering a proposition that helps its clients address their challenges and capitalise on their opportunities. The Company works hard at developing and sustaining long-term client relationships, which it supports through its global team of consultants and by extending the range of services it offers and the types of projects it carries out.

Communities

Alpha is a growing, profitable business, committed to fostering the same growth and success within the communities in which it operates, which includes supporting organisations that are relevant to or active in those communities. As part of this engagement, the Company also considers how to maximise our corporate responsibility and the positive environmental and social impacts of its activities, and to minimise the downsides, which will give us a solid baseline for developing relevant action plans and targets.

Please refer to pp. 30-33 of the Annual Report & Accounts 2023 of the ultimate parent company, Alpha Financial Markets Consulting plc, for further details on the above key stakeholders, and the Group's approach to engagement with each class of stakeholder.

Key Board decisions during the year

The Directors consider the following to be the key decisions and considerations they have made in the year to 31 March 2023:

Decision	Considerations
Issued the FY 22 Annual Report and financial statements to shareholders.	To ensure compliance with the requirements of the Companies Act 2006 and the relevant accounting framework.
The Board approved the appointment of one additional Director.	To ensure the composition of the Board enables the ongoing effective management and oversight of the Company.
The Board agreed the FY 23 interim dividend payable to the Company's parent, Alpha Financial Markets Consulting Group Limited.	To facilitate the payment of Group dividends to the shareholders of the Company's ultimate parent, Alpha Financial Markets Consulting plc.
The Board considered the Company's strategic priorities at a dedicated strategy session.	To ensure the ongoing review of the Company's strategy and progress against strategic goals.

Strategic report (continued)

Key Board decisions during the year (continued)

Decision	Considerations
The Board reviewed the results of the employee engagement survey and initiatives carried out by the HR team to implement positive changes to ensure the ongoing engagement of the Company's employees.	To understand the feedback provided by employees, to take appropriate actions and to ensure the ongoing engagement of the Company's employees in respect of implementing positive changes. When reviewing the actions to be implemented, the Board considered the financial consequences and the impact on long-term value and growth.

By order of the Board.

Greg A Cook
Director

8 November 2023

Directors' report

The Directors present their report and the audited financial statements for the year ended 31 March 2023.

Principal activities

The principal activity of the Company continued to be the provision of specialist consultancy services, including Simcorp-related implementation and advisory support, to the asset management industry.

Results and dividend

The results for the year are set out in the Strategic Report on p. 2 and in the profit and loss account on p. 11. The Directors consider the current state of affairs of the Company to be satisfactory.

During the year, an interim dividend of £1,000,000 (FY 22: £nil) was made to the Company's sole shareholder Alpha Financial Markets Consulting Group Limited, to facilitate the payment of the Group dividend made by the Company's ultimate parent, Alpha Financial Markets Consulting plc, to its shareholders. The Directors have not recommended the payment of a final dividend (FY 22: £nil).

Directors

The Directors who held office during the year were as follows:

JC Paton

N Fienberg

S McNulty

GA Cook (appointed 30 June 2022)

AJS Cheema (resigned 6 June 2022)

AP Ritchie (resigned 30 June 2022)

S McDermott (resigned 15 July 2022)

ENB Fraser (resigned 31 March 2023)

Political contributions

The Company made no political donations and incurred no political expenditure during the year (FY 22: £nil).

Engagement with suppliers and customers

The Directors note the importance of fostering strong relationships with the Company's customers and suppliers through open communication and having regard for these relationships in strategic decisions made relating to the Company.

Environmental reporting

In accordance with the Companies Act 2006 and HM Government's 'Environmental Reporting Guidelines', the Company has not repeated those disclosures required in relation to the Company's environmental reporting responsibilities (including Streamlined Energy and Carbon reporting) on the basis that this information is available on our website in the Group's Annual Report & Accounts 2023 on pp. 40-41.

Disclosure of information to auditor

The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware, and each Director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

Directors' report (continued)

By order of the Board.

Statement of Directors' responsibilities in respect of the Directors' report and the financial statements

The directors are responsible for preparing the strategic report and the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Group or the parent company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Directors' Report that complies with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report to the members of Axxsys Limited

Opinion

We have audited the financial statements of Axxsys Limited ("the Company") for the year ended 31 March 2023 which comprise the Profit and Loss account, Balance sheet, Statement of changes in Equity and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2023 and of its Profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Reading Board minutes.
- Considering remuneration incentive schemes and performance targets for management and Directors.
- Using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition due to the recognition criteria being straight forward and driven primarily by time charged.

Independent auditor's report to the members of Axxsys Limited (continued)

We did not identify any additional fraud risks. We performed procedures including:

- Identifying journal entries to test based on risk criteria and comparing the identified entries to supporting documentation. These included unusual pairings with a credit or debit to an account below EBITDA and unusual journals with a credit or debit entry to cash;
- Identifying revenue transactions to test based on unusual pairings with a credit or debit to revenue;

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, and through discussion with the directors and other management (as required by auditing standards), and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: anti-bribery and employment law recognising the financial nature of the Company's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Strategic report and Directors' report

The Directors are responsible for the strategic report and the Directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the Directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the Directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Independent auditor's report to the members of Axxsys Limited (*continued*)

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 7, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the financial statements (forming part of the financial statements)

1 Accounting policies

Axxsys Limited (the "Company") is a company limited by shares, domiciled and registered in the UK. The registered number is 04967647 and the registered address is 60 Gresham Street, London, EC2V 7BB.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company's parent undertaking, Alpha Financial Markets Consulting plc, includes the Company in its consolidated financial statements. The consolidated financial statements of Alpha Financial Markets Consulting plc are available to the public and may be obtained from 60 Gresham Street, London EC2V 7BB or on the website at alphafmc.com/investors.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- A cash flow statement and related notes;
- Comparative period reconciliations for share capital, tangible fixed assets, intangible assets and investment properties;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of key management personnel;
- Disclosures of transactions with a management entity that provides key management personnel services to the Company; and
- Disclosures of related party transactions.

As the consolidated financial statements of Alpha Financial Markets Consulting plc include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 Share-based Payment in respect of Group settled share-based payments; and
- Certain disclosures required by IFRS 16 Leases in relation to disclosure of the Company's leasing activities.

In applying the Company's accounting policies, the Directors have not made any judgements that have a significant effect on the financial statements. There are no major sources of estimation uncertainty at the end of the reporting period that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

1.1 Basis of preparation

These financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at fair value.

The presentational currency of these financial statements and the functional currency of the Company is pounds sterling. All amounts in these financial statements have been rounded to the nearest £1,000, unless stated otherwise.

1.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, cash liquidity and existing borrowing facilities.

As at 31 March 2023, the Company had net current assets of £2.0m. The Company also has access, throughout the going concern period, to a revolving credit facility ("RCF") of £50.0m, through other Group companies, providing further liquidity.

Notes to the financial statements (continued)

1 Accounting policies (continued)

1.2 Going concern (continued)

The Company prepared cash flow forecasts covering the going concern period. The base case assumes trading performance over the forecast period in line with the Board-approved budget. The Directors considered the principal risks and mitigants and analysed a range of cash flow downside scenarios including a "reverse-stress test" scenario. This models the decline in sales over the going concern period that would be required before all the available cash reserves are utilised. The Directors consider this scenario and the sequence of events that could lead to it to be remote, as it requires significant annualised revenue reductions compared to the base case, before modelling any mitigating actions, including cost reductions.

The Directors have considered the Company's recent trading, strong cash conversion, and new business pipeline, while also remaining cognisant of the potential ongoing macroeconomic uncertainty.

After careful consideration of these scenarios, the Directors have a reasonable expectation that the Company's existing resources are adequate to meet its requirements over the going concern period. On this basis, the Directors consider that it is appropriate to adopt the going concern basis in preparing the financial statements.

1.3 Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the average foreign exchange rate in the month of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the average exchange rate in the month of the transaction and are not retranslated. Foreign exchange differences arising on translation to functional currency are recognised in administration expenses.

1.4 Financial instruments

The Company uses financial instruments comprising cash and cash equivalents, and other short-term instruments, such as trade payables that arise from its operations. The main purpose of these financial instruments is to fund the Group's business strategy and working capital requirements.

Accounting policies in respect of financial instruments are outlined below.

Financial assets

Financial assets are initially measured at fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, transaction costs. The Company has not reclassified any financial assets subsequent to initial recognition as at the balance sheet date. Reclassification of classes of financial assets is accounted for prospectively in accordance with IFRS 9, where this is required. Any difference on reclassification from amortised cost to fair value through profit or loss is recognised in the profit and loss at the reclassification date.

Financial assets are assessed at each reporting date to determine a lifetime expected credit loss that reflects the credit risk associated with the portfolio of assets. A financial asset is impaired in line with the simplified approach under IFRS 9 which uses a lifetime expected loss allowance.

The Company recognises an expected credit loss provision in relation to financial assets. The simplified method is applied to the Company's trade receivables as described below. The Company's expected credit loss provision on all other financial assets is immaterial as the probability of default is low. Movements in the expected credit loss provision are recognised in profit or loss.

Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The provision is recognised in the income statement as an operating charge.

The trade receivables balance recorded in the Company's statement of financial position comprises a relatively small number of high-value balances, which are held until realised in cash.

Axxsys provides services to customers on credit terms with mainly arrears billing. Certain receivables may not be paid. The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure expected credit losses, trade receivables have been grouped based on shared credit characteristics and the days past due. The Company considers historical loss rates for each ageing category as a starting point for estimating the expected credit loss. This historical loss rate is subsequently adjusted for macro-economic and customer-specific factors of receivables within each ageing category. Characteristics considered by the Company for these purposes include: historical collection experience for each customer; the assessed liquidity of key customers within the receivables balance; and other relevant macro-economic factors in order to determine a reasonable and supportable assessment of the expected lifetime credit risk in the context of the overall year-end trade receivables due.

Notes to the financial statements (continued)

1 Accounting policies (continued)

1.4 Financial Instruments (continued)

Amounts owed by Group undertakings

Amounts owed by Group undertakings are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of intercompany receivables is established using an expected credit loss model. The Company classifies all intercompany receivables that form a part of the normal trading cycle of the Company as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve month period from the balance sheet date. All other amounts owed by Group undertakings are considered as non-current assets.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits and are recorded and subsequently measured at amortised cost in line with IFRS 9.

Financial liabilities

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. As at 31 March 2023, the Company had no derivative financial instruments or designated hedge relationships.

Other financial liabilities held by the Company are recognised at amortised cost.

Trade and other payables

Trade and other payables are initially recognised at fair value, equal to the transaction price, and are subsequently measured at amortised cost. Trade payables due within one year are not discounted.

Amounts owed to Group undertakings

Amounts owed to Group undertakings are recognised initially at fair value and subsequently measured at amortised cost. Balances due within one year are not discounted.

1.5 Property, plant and equipment

All property, plant and equipment are stated at historical cost (or deemed historical cost) less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use.

Depreciation is provided on all property, plant and equipment at rates calculated to write each asset down to its estimated residual value on a straight-line basis at the following annual rates:

Computer equipment	3 years
--------------------	---------

Useful economic lives and estimated residual values are reviewed annually and adjusted as appropriate.

1.6 Leases

The Company leases office premises within the United Kingdom. Leases are negotiated on an individual basis, and for a variety of terms over which rentals are fixed with break clauses and options to extend for a further period at the then prevailing market rate. Contracts may contain both lease and non-lease components. Non-lease components are separately identifiable and excluded from the recognition of the lease under IFRS 16.

The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Alongside the rental leases associated with the office spaces, Alpha also holds leases over associated office equipment. These form the population of leases subject to IFRS 16 accounting.

Measurement of lease liabilities

On initial recognition of a new lease, the lease liability is recognised as the present value of future payments, discounted using the incremental borrowing rate ("IBR"), unless the interest rate implicit to the lease is available for use.

Lease payments to be made subsequent to optional termination options have been included within the lease liability measurement, where it is reasonably certain that such options will be exercised.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be easily determined, the IBR

Notes to the financial statements (continued)

1 Accounting policies (continued)

1.6 Leases (continued)

is applied, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions. In determining the IBR, the Group has made adjustments for relevant factors such as lease term, lease value, country and asset-specific considerations.

The Company accounts for lease payments by allocating them to a finance cost element and against the lease liability. The finance cost is charged to profit or loss over the lease period.

When the Company revises its estimate of the term of any lease (for example, if a significant change in circumstances within the Company's control indicates a reassessment is appropriate), the Company adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. In such cases, an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in profit or loss.

The Company has no material exposure to variable lease payments that qualify for accounting treatment under IFRS 16.

Measurement of right-of-use assets

The right-of-use asset for lease agreements is measured on initial recognition as the amount equal to the lease liability on initial measurement, less any lease incentives, plus any initial direct costs.

Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

The Company has used the practical expedients permitted by IFRS 16 in relation to accounting for leases with a remaining lease term of less than 12 months as "short-term leases", and those with a low value as "low-value leases". Consequently, no lease liability or right-of-use asset was calculated thereon. These leases are expensed in the statement of profit and loss. The Company also applies the practical expedient to combine leases with similar characteristics to a portfolio of leases for the purpose of applying the requirements of IFRS 16.

See note 10 for further details on the Company's leasing arrangements.

1.7 Impairment (non-financial assets)

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value, less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purposes of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates independent cash inflows (the "cash-generating unit"); that is, cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses are allocated between the carrying amounts of other assets in the unit (or group of units) on a pro-rata basis as a reduction in the value of the asset.

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Impairment losses recognised in prior periods are assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Right-of-use assets are accounted for in line with section 1.6 above.

Notes to the financial statements (continued)

1.8 Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have a legal or constructive obligation to pay further amounts. Contributions to defined contribution schemes are charged to the statement of comprehensive income as they become payable in accordance with the rules of the scheme. Differences between contributions payable in the year and contributions paid are shown as either accruals or pre-payments in the statement of financial position.

1.9 Revenue recognition

Recognition of revenue and client billing

Revenue consists of the value of work executed for clients during the year and expenses recharged, exclusive of VAT. Revenue is classified into net fee income and recharged expenses. Net fee income represents the Group's personnel, subcontractor and related expertise and services sold to clients. Recharged expenses are the recharge of costs incidental to fulfilling contracts including flights, subsistence and accommodation on which nil or negligible margin is earned by the Group.

The Company delivers services that have no alternative use to the Company (advice to clients, reports, etc.) as the services are specifically tailored to clients' projects and scope of work. The significant majority of the Group's revenue is contracted on a time and materials basis, where the performance obligation is to provide consultancy resources at agreed day rates. For such contracts, revenue is recognised over time, as consultant days worked are delivered. Modifications or extensions to such projects are recognised as services are delivered. Significant extensions, where the scope or price of the contract increases, are treated as separate contracts. Contracts accounted for on a time and materials basis are billed incrementally, typically monthly, for incurred time and materials.

Revenue recognition for fixed-fee projects is based on the satisfaction of performance obligations in line with contractual project milestones, depending on the nature of the performance obligations for the project. Material scope changes are managed via a new agreement with the client. Fixed-fee projects are typically billed in accordance with the nature of the performance obligations when a right to payment crystallises.

For most fixed-fee milestone projects, revenue is recognised at a point in time upon delivery of each performance obligation and these projects are typically billed as contractual milestones are delivered and the right to payment exists. Contractual milestones are only treated as separate performance obligations by the Group when they are distinct from the other elements in the contract and could provide a benefit to the customer without further work being completed. In limited circumstances, revenue from fixed fee milestone projects is recognised over time where the Group has an enforceable right to payment for performance completed to date, before the contractual milestone has been fully delivered.

Revenue is wholly attributable to the principal activities of the Company. For all revenue types, payment is typically due between 30 and 60 days after the invoice date or receipt of invoice, depending on the client and geography.

Recognition of contract receivables

Activity performance recognised as revenue in excess of invoices raised results in the recognition of a contract receivable, which is included within accrued income, up to the value of the relevant project delivery milestone, where applicable.

Recognition of contract liabilities

Where amounts have been invoiced in excess of work performed and revenue recognised, the excess is a contract liability and is included within deferred income, valued in line with the nature of the project and related performance obligations as described above and recognised in future periods.

1.10 Cost of sales

Cost of sales is defined by management as the direct costs associated with the generation of the Company's revenue, including staff payroll and contractor costs, subsistence and travel that are directly attributable to the delivery of services and supporting growth.

Rechargeable expenses, including travel and subsistence directly recharged to the Company's clients as part of revenue generation, are presented within the "rechargeable expenses" line within the Company's statement of comprehensive income.

Capitalised contract fulfilment costs

Costs directly attributable to the fulfilment of unsatisfied or partially unsatisfied performance obligations on customer contracts are recognised as an asset where these costs generate or enhance resources of the Group and the costs are expected to be recovered. These costs principally relate to partially completed milestones on fixed-fee contracts. These costs are recognised in the consolidated income statement at the point of revenue recognition.

Notes to the financial statements (continued)

1.11 Administration expenses

Administration expenses are defined by management as costs incurred by the Company that are not directly associated with the generation of revenue. This includes items such as head office staff costs, recruitment and professional fees and IT services, which are expensed as incurred. Administration expenses exclude finance income and expenses and taxation, which are presented separately in the profit and loss account.

1.12 Finance income and finance expense

Finance income includes interest receivable on cash invested. Finance expense includes interest payable, unwinding of the discount on provisions, and discount unwinding associated with leases within the scope of IFRS 16.

Interest income and interest payable on bank loans or amounts due to certain Group undertakings is recognised in profit or loss as it accrues, using the effective interest method.

1.13 Dividends payable

Dividends payable are recognised in the statement of changes in equity on the date the entity's obligation to pay the dividend is established.

1.14 Taxation

Taxation expense on the result for the year comprises current and deferred tax. Current and deferred tax is recognised in the profit & loss account, except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable or receivable on the taxable income for the period, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities, and when they relate to taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

1.15 New accounting standards and interpretations

The following changes in accounting policies were applied by the Company in these financial statements for the year ended 31 March 2023. These included the adoption of new standards and interpretations described below.

The International Accounting Standards Board (IASB) and IFRS Interpretations Committee (IFRIC) have issued the following standards and interpretations which are now effective:

- Reference to the Conceptual Framework (Amendments to IFRS 3), effective from 1 January 2022;
- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to IAS 16), effective from 1 January 2022;
- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37), effective from 1 January 2022; and
- Annual Improvements to IFRS Standards 2018-20 Cycle, effective from 1 January 2022.

The Directors reviewed the nature and effect of these new standards on the Company and noted no material impact on the financial statements for the year ended 31 March 2023.

The Directors have considered new standards and interpretations that have been issued but not yet been effective, however have applied the exemption not to disclose this information under FRS 101.

Notes to the financial statements (continued)

2 Revenue

	FY 23 £000	FY 22 £000
Rendering of services	4,077	3,648
Rechargeable expenses	22	1
Revenue	4,099	3,649
	FY 23 £000	FY 22 £000
<i>By activity</i>		
Management consulting	4,099	3,649

3 Auditor's remuneration

	FY 23 £000	FY 22 £000
Audit of these financial statements	73	56

Amounts receivable by the Company's auditor and its associates in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's parent, Alpha Financial Markets Consulting plc.

4 Staff numbers and costs

The average number of persons employed by the Company (including Directors) during the year, analysed by category, was as follows:

	Number of employees FY 23	FY 22
Administrative	3	3
Sales	14	12
Average number of employees in the year	17	15

The aggregate payroll costs of these persons were as follows:

	FY 23 £000	FY 22 £000
Wages, salaries and short term benefits	1,825	1,812
Social security costs	189	204
Contributions to defined contribution plans	57	45
Total staff costs for the year	2,071	2,061

Notes to the financial statements (continued)

5 Directors' remuneration

	FY 23 £000	FY 22 £000
Directors' remuneration	307	999
Gain on share option exercises	194	-
Company contributions to money purchase pension plan	8	9
	<u> </u>	<u> </u>

The highest paid director received remuneration of £177,000 (FY 22: £435,000).

The value of the company's contributions paid to defined contribution pension scheme in respect of the highest paid director amounted to £4,000 (FY 22: £9,000).

The highest paid director exercised share options during the year (FY 22: no share options exercised).

The remuneration disclosed above includes a proportion of remuneration for one director that is remunerated through a different Group entity.

	Number of Directors FY 23	FY 22
Benefits are accruing to the following number of Directors under:		
Money purchase schemes (retirement benefits)	1	1
Long term share incentive plan	1	1
	<u> </u>	<u> </u>

Amounts paid or payable to certain of the Company's Directors through other Group companies have been excluded from the above disclosure and included within the disclosures of other Group companies, on the basis that their services are predominantly provided to the wider Group.

Notes to the financial statements (continued)

7 Taxation (continued)

An increase in the UK corporation rate from 19% to 25% (effective 1 April 2023) was substantively enacted on 24 May 2021. In FY 24, this change will increase the Company's current tax charge accordingly.

The difference between the total tax expense shown above and the amount calculated by applying the standard rate of UK corporation tax to the profit before tax is as follows:

	FY 23 £000	FY 22 £000
Profit before taxation	683	226
Tax using the UK corporation tax rate of 19% (FY 22: 19%)	130	43
Fixed asset differences	(1)	(2)
Reduction in tax rate on deferred tax balances	-	1
Non-deductible expenses	1	(10)
Adjustments in respect of prior periods	10	3
Group relief received	(130)	(33)
Payment for group relief	130	33
Total tax expense for the year	<u>140</u>	<u>35</u>

10 Leases

(i) Amounts recognised in the statement of financial position

The balance sheet shows the following amounts relating to leases:

Right-of-use assets	Buildings £000
Cost	
As at 1 April 2022	124
Additions	-
Disposals and other movements	-
As at 31 March 2023	124
Depreciation	
As at 1 April 2022	(3)
Charge for the period	(104)
Disposals	-
As at 31 March 2023	(107)
Net book value as at 31 March 2023	17
Net book value as at 1 April 2022	121

Notes to the financial statements (continued)

10 Leases (continued)

A summary of the Company's lease liabilities as at 31 March 2023 is presented below:

	FY 23 £000	FY 22 £000
Due within one year	18	108
Due between one and five years	-	18
Due after five years	-	-
Total lease liabilities - undiscounted	18	126
Impact of discounting	-	(3)
Total Lease liabilities - discounted	18	123

(ii) Amounts recognised in the income statement

The income statement shows the following amounts relating to leases:

	FY 23 £000	FY 22 £000
Depreciation of right-of-use asset	104	3
Included in administration expenses	104	3
Interest expense on lease liabilities	3	2
Included in finance expenses	3	2

Total rental payments made in the year on all lease tenors amounted to £108,000 (FY 22: £3,000).

The Company has given consideration to any extension options and early termination options with reasonable certainty at the date of signing these financial statements, and these have been reflected within the lease liability where appropriate.

The Company had no income associated with sub-leasing arrangements, or gains/losses associated with sale-and-leaseback transactions in the year ended 31 March 2023.

11 Trade and other receivables

	FY 23 £000	FY 22 £000
Trade receivables	55	302
Amounts owed by Group undertakings	2,888	3,287
Other receivables	20	12
Prepayments and accrued income	68	34
Total amounts due within one year	3,031	3,635

Trade receivables are stated after an immaterial provision for expected credit losses in both the current and prior years.

The Directors are satisfied that all outstanding amounts from subsidiary group undertakings are recoverable. Expected credit losses in relation to amounts owed by Group undertakings were immaterial in both the current and prior year.

Amounts owed by Group undertakings are interest free and are repayable on demand. The Company classifies all intercompany receivables that form a part of the normal trading cycle of the Company as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve-month period from the balance sheet date. All other amounts owed by Group undertakings are considered as current assets. All amounts owed by Group undertakings, have been classified within current assets.

Notes to the financial statements (continued)

12 Cash and cash equivalents

	FY 23 £000	FY 22 £000
Cash at bank	923	583
Cash and cash equivalents	<u>923</u>	<u>583</u>

All cash and cash equivalents held by the Company are available for use by the Company with no restrictions.

13 Trade and other payables

	FY 23 £000	FY 22 £000
Trade payables	107	142
Amounts owed to Group undertakings	1,258	1,045
Taxation and social security	108	309
Accruals and deferred income	454	240
Total amounts owed within one year	<u>1,927</u>	<u>1,736</u>

Amounts owed to Group undertakings are either interest-bearing or non-interest-bearing depending on the type of the creditor relationship and local regulatory requirements. At the balance sheet date all of these balances are non-interest-bearing. All amounts owed to Group undertakings are repayable on demand.

The Directors are satisfied that all outstanding amounts from subsidiary group undertakings are recoverable. Expected credit losses in relation to amounts owed by Group undertakings were immaterial in both the current and prior year.

Deferred income relates to contract liabilities arising from the Company's revenue generating activities relating to payments received in advance of performance delivered under a contract. These contract liabilities typically arise on short-term timing differences between performance obligations in some milestone or fixed-fee contracts and their respective contracted payment schedules. The contract liability movement in the year represents these timing differences across contracts at each year end. As at 31 March 2023 there is an immaterial level of deferred income held on the Company's balance sheet, and movements in contract liabilities in the year were also immaterial. All current deferred income is expected to be recognised through revenue within one year.

14 Capital and reserves

Share capital

	FY 23 £	FY 22 £
Allotted, called up and fully paid		
427,000 ordinary shares of £0.0001 each	43	43
Balance at the end of the year	<u>43</u>	<u>43</u>

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

Dividends

During the year, an ordinary dividend payment totalling £1,000,000 was made to the Company's sole shareholder Alpha Financial Markets Consulting Group Limited (FY 22: £nil), to facilitate the payment of the Group dividend made by the Company's ultimate parent, Alpha Financial Markets Consulting plc, to its shareholders. The Directors have not recommended the payment of a final dividend (FY 22: £nil).

Notes to the financial statements (continued)

15 Related parties

The Company has not engaged in any transactions with any related parties other than with wholly owned subsidiaries within the Alpha Group, and remuneration of the Company's key management personnel. These transactions have not been disclosed as the Company has taken advantage of exemptions under FRS 101.

16 Ultimate parent company

The Company is a subsidiary undertaking of Alpha Financial Markets Consulting Group Ltd, incorporated in England and Wales. The ultimate controlling party is Alpha Financial Markets Consulting plc.

Both the largest and smallest Group in which the results of the Company are consolidated is that headed by Alpha Financial Markets Consulting plc, incorporated in England and Wales. The consolidated financial statements of the Group are available to the public and may be obtained from 60 Gresham Street, London EC2V 7BB, or the website investors.alphafmc.com.
