Directors' report
for the year ended 31 March 2013

The directors present their report and the audited financial statements for the year ended 31 March 2014.

Principal activities and review of the business

The principal activity of the company continued to be that of a holding company. The principal activities of the subsidiary undertakings are the provision of consulting and related services to clients in the asset and wealth management industries.

On 24 October 2013, Alpha FMC Group Limited bought the entire share capital of Alpha Financial Markets Consulting Group Limited. As part of the deal, Alpha FMC Group Limited also purchased the minority interest in Alpha Financial Markets Consulting (France) SA, which it then transferred to Alpha Financial Markets Consulting Group Limited.

Results and dividends

The results of the group for the year are set out on page 6.

An interim ordinary dividend was paid amounting to £573,000 (2013: £425,000). The directors do not recommend payment of a final dividend (2013: £nil).

After deducting taxation, dividends and accounting for share based payments, the amount of £5,118,000 (2013: £1,480,000) has been transferred to reserves.

Directors

The following directors have held office during the period and to the date of this report.

Mr N Baker
Mr N Kent (resigned 24 October 2014)
Mr B Lantorp
Mr E Fraser
Mr N Curham

Statement of disclosure to the auditor

So far as the directors are aware, there is no relevant audit information of which the company's auditor are unaware. Additionally, the directors have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditors are aware of that information.

Auditor

Dickinsons resigned as auditor during the year and KPMG LLP was appointed. Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

Strategic report

Business review

The group made very strong progress during the year. Turnover increased 90% from £14,173,000 to £26,871,000 and operating profit increased 144% from £1,797,000 to £4,378,000. All four offices: London, Paris, Luxembourg and New York contributed to this growth. Trade debtors have increased somewhat during the year from £4,921,000 to £5,325,000 due to the increased turnover. There are no concerns over the recoverability of debtors although a small bad debt provision has been introduced during the year to mitigate potential risk.

Future developments

The business plan developed by the directors' shows growth is expected to continue in the forthcoming year. The directors are confident of achieving their plan based on the level of on-going work at the start of the financial year, the level of work already sold but still to be delivered and the strong pipeline of future opportunities.

Key performance indicators

The directors monitor performance on both a weekly and a monthly basis using a range of financial and non-financial indicators. Working capital management is the primary indicator which is reviewed on a weekly basis to monitor cash flow, liquidity and the recovery of trade debtors.

Each month the directors review the management accounts for each group undertaking and compare actual performance against budget. Costs are also reviewed to monitor profitability.

Principal risks

The performance of the group is subject to only limited risk in the short and medium term as the future pipeline of work is very strong. The group continues to generate substantial cash after retaining a proportion of profits to fund increased working capital requirements resulting from growth in the business. Management continue to operate conservative cash management policies.

Statement of directors' responsibilities in respect of the strategic report, directors' report and the financial statements

The directors are responsible for preparing the Directors' and Strategic Reports and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the group and parent company financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and parent company and of their profit or loss for that period. In preparing each of the group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and the parent company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the group and to prevent and detect fraud and other irregularities.

Independent auditor's report to the members of Alpha Financial Markets Consulting Group Limited

We have audited the financial statements of Alpha Financial Markets Consulting Group Limited for the year ended 31 March 2014 set out on pages 6 to 19. The financial reporting framework that has been applied in their preparation is applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement set out on page 4, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 March 2014 and of the group's profit for the year then ended;
- have been properly prepared in accordance with UK Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Directors' and Strategic Reports for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Notes

(forming part of the financial statements)

1 Accounting policies

Accounting convention

The financial statements are prepared under the historical cost convention.

Basis of preparation

The consolidated financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated) and under historical cost accounting rules. The Company has elected to prepare its parent company financial statements in accordance with UK GAAP.

Under FRS 1, the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

As the Company is a wholly owned subsidiary of Alpha FMC Group Holdings Limited, the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group. The consolidated financial statements of Alpha FMC Group Holdings Limited, within which this company is included, can be obtained from the address given in note 24.

Basis of consolidation

The consolidated accounts include the results of the company and its group undertakings. No profit and loss account is presented for the company as permitted by section 408 of the Companies Act 2006.

Turnover

Turnover represents amounts receivable for services net of VAT. Turnover is recognised upon delivery of the service.

Depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Leasehold improvements	over the lease term
Computer equipment	20-33% on cost
Fixtures, fittings and equipment	25% on cost

Goodwill

Goodwill arising on acquisitions is written off in equal annual instalments over the directors' estimate of its useful economic life of 20 years.

Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Investments

Fixed asset investments are stated at cost less provision for diminution in value.

Pensions

The group operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred taxation is provided in respect of material taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.

Notes (continued)

1 Accounting policies (continued)

Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to the profit and loss account.

Dividends on shares presented within shareholders' funds

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

Share-based payments

The group has issued share options to certain directors and employees. These must be measured at fair value and recognised as an expense in the profit and loss account with a corresponding increase in equity. The fair value of the options is estimated at the date of grant using the Black-Scholes Option Pricing Model. The fair value is charged as an expense in the profit and loss account over the vesting period and adjusted each year to reflect the expected and actual level of vesting.

2 Turnover

The turnover and operating profit for the year were derived from the group's principal activities. The geographical analysis of turnover is as follows:

<i>Group</i>	2014 £000	2013 £000

16 Group pension contributions

The group operates a money purchase pension scheme for the benefit of certain of its directors and employees. The assets of the scheme are held separately from those of the group in an independently administered fund. Contributions during the period amounted to £25,331 (2013: £21,672).

The number of directors accruing benefits under the scheme was three (2013: four).

Notes (continued)

17 Share-based payment transactions

The company operates a general employee share-option scheme for the benefit of certain directors and employees. The scheme has been in operation since November 2007.

Options granted under the scheme typically have a life of 10 years and vest within three years from the grant date, the vesting period varies depending upon the purpose of and the conditions attached to the individual options awarded. The vesting conditions associated with the share options granted are generally either performance or service related. All awards under the scheme are equity-settled, and all became exercisable when the parent company was sold.

The following share options were outstanding under the scheme:

	Number of options 2014	Weighted average exercise price (pence) 2014	Number of options 2013	Weighted average exercise price (pence) 2013
At beginning of the year	107,368	506	61,888	592
Granted in the year	0	0	50,980	348
Forfeited in year	(6,450)	269		
Exercised in the year	(100,918)	535	(5,500)	11
At the end of the year	0	0	107,368	506
Options exercisable at the end of the year	0	0	107,368	506

During the year, the following share options were exercised: 49,480 (2013: 5,500) Ordinary 'ANV' shares of 10p each, with an estimated weighted average share price at the date of exercise of 10.29p (2013: £18.77); 24,450 (2013: nil) Ordinary 'A' shares of 10p each at a weighted average share price at the date of exercise of £19.81; 3,788 (2013: nil) Ordinary 'UK' shares of £3.10 each at a weighted average share price at the date of exercise of £15.93; 23,200 (2013: nil) Ordinary 'C' shares of 10p each at a weighted average share price at the date of exercise of 10p.

Weighted average remaining contractual life of outstanding options in 2013 (nil in 2014):

	2013
Outstanding options (number)	107,368
Weighted average price (pence)	506
Weighted average remaining contracted life (years)	1.92
Range of exercise prices for share options outstanding at the end of the year (pence)	10p to 1.981p

In accordance with FRS 20 'Share-Based Payment', the fair value of each of the share options has been calculated by applying the Black-Scholes Option Pricing Model to the estimated share price on the grant date of the option.

The model inputs were the relevant share price at grant date, the exercise price as stated in the option agreement, expected volatility of 25%. No expected dividends, an option life based on the best estimate of the expected vesting period and a risk-free interest rate of 3%.

To allow for the effects of early exercise, the option life is based on an estimate of the option's expected life rather than its contractual life.

Volatility has been determined based on historical volatility in the estimated share price.

Notes (continued)

17 Share based payment transactions (continued)

No share options were granted in the year.

The following share options were granted in the prior year
