Strategic report

Business review

During the shortened 7 month period to 31 March 2020 (FY 20¹), 100% of the issued share capital of the Company was acquired by Alpha Financial Markets Consulting Group Limited, whose ultimate parent, Alpha Financial Markets Consulting Plc, is a leading global provider of specialist consultancy services to the asset and wealth management industry. The Company has achieved revenue in the period of £286,000 (FY 19: £582,000), and a profit after tax of £20,000 (FY 19: profits of £170,000) reflective of the one-off costs relating to the integration of the Company's product offering in the period. The addition of the Company to the Alpha Group² extends and strongly complements its technology and data proposition and has been successfully integrated.

Future developments

The business plan developed by the Directors in light of the ongoing outbreak of COVID-19 in the UK expected an anticipated drop in revenue generation in the early months of FY 21 with an expected period of recovery subsequently and a return to more normal trading conditions in FY 22. The Company has retained a relatively good pipeline of core work through the early months of FY 21 despite measures put in place relating to the pandemic. Looking forward, the Company is expected to continue to grow through working closely with Alpha Data Solutions Ltd, and drawing on the client relationships of the wider Alpha Group.

Key performance indicators

The Directors monitor performance on both a weekly and a monthly basis using a range of financial and non-financial metrics. Working capital management is the primary indicator which is reviewed on a weekly basis to monitor cashflow, liquidity and the recovery of trade receivables.

Each month the Directors review the management accounts for each Group undertaking and compare actual performance against budget. Costs and utilisation are also reviewed to monitor profitability.

Principal risks and uncertainties

The performance of the Company in the short-term is subject to uncertainty arising from the macro-economic impact of the COVID-19 outbreak, however the future pipeline and integration opportunities for the Company's products within the Alpha Group is considered relatively strong despite the uncertainty. Management continue to operate conservative cash management policies, which have been supplemented by strategic decisions made to safeguard liquidity during the pandemic, as described below. The Directors are satisfied with performance for the year.

Risk Management and the impact of COVID-19

The Directors note that the World Health Organisation declared a pandemic relating to COVID-19 on 11 March 2020, and social distancing measures were introduced in the UK during March 2020. The Directors have therefore considered the impact of the pandemic on the Company's operations, with a focus primarily on the Company's going concern assessment, forward looking forecasts and recoverability of assets, including the Company's trade receivables.

The Directors have taken mitigating actions designed to manage the risk and reflect the uncertainty associated with the pandemic and protect the balance sheet and maintain a strong liquidity position. Actions taken include the delay of profit share payments to employees, and delays to all but essential recruitment processes in the short-term.

Further, the Alpha Group has taken the decision not to pay a final dividend for the year ended 31 March 2020 in order to protect the Group's cash position in the short-term. The Group's revolving credit facility (RCF) has also been extended in June 2020 to provide additional liquidity headroom to the Group in light of uncertainty in the market in the short-term.

The Directors and the executive team continue to monitor the geopolitical developments surrounding the UK's decision to leave the European Union ("Brexit") closely. The Company has assessed that Brexit has not had a material direct impact on its ongoing growth and development of the business, given arrangements between the UK and EU countries, and its network of offices across Europe. The impact of Brexit on the business has been a short-term delay to client decision making, which is not expected to have any adverse effects over the medium term. The impact of Brexit has been overshadowed in recent months by the emergence of a major severe macro-economic crisis associated with COVID-19 as above. The Company is conscious that this position may change, and unexpected new challenges could arise that affect this risk assessment, including the broader impact that Brexit has on the UK economy as a whole.

By order of the Board,

John C Paton
Director

15 March 2021

¹ FY 20 is the financial year covering the 7 months to 31 March 2020. By comparison, FY 19 is the previous financial year covering the 12 months to 31 August 2019; FY 21 is the subsequent financial year covering the 12 months to 31 March 2021; and FY 22 is the subsequent financial year covering the 12 months to 31 March 2022.

² Group refers to the Company's ultimate parent, Alpha Financial Markets Consulting Plc and its subsidiaries.

Directors' report

The Directors present their report and the audited financial statements for the seven months ended 31 March 2020.

Principal activities

The principal activity of the Company continued to be the development of software and related services for the asset management industry.

Results and dividend

The results for the year are set out in the attached profit and loss account.

For further information on the likely future developments of the business, please refer to the Strategic report.

After deducting taxation, a £20,000 profit was transferred to reserves (FY 19: profit of £170,000).

Directors

The Directors who held office during the year were as follows:

ENB Fraser (Appointed 9 November 2019)

JC Paton (Appointed 9 November 2019)

L Radenovic

N Spencer (Appointed 9 November 2019)

RB Hart (Resigned 9 November 2019)

S Skerletovic (Resigned 9 November 2019)

Political contributions

The Company made no political donations or incurred any political expenditure during the year.

Employee involvement

The health and welfare of the Company's employees remains a key priority for the Directors. The Company has the intent to attract, recruit, develop and retain key employees, and the Company maintains policies and procedures on the Group intranet, with access to this documentation provided to employees via the Company's Human Resources department. Appropriate education, training and development opportunities are provided to all employees to encourage continuous development, and employees are kept abreast of key financial and economic updates on the Company's performance and other matters on a regular basis, and in monthly meetings hosted by senior management, where employees have an opportunity to raise questions or provide feedback.

It is the Company's policy to give full and fair consideration to all applications for employment including from disabled people, having regard to their abilities and aptitudes. Full consideration is given to continuing the employment of staff who become disabled, including considering them for other reasonable positions and arranging appropriate training where required. The Company aims to provide an inclusive environment for all employees, regardless of sex, marital status, race, nationality, age, sexual orientation or religion.

Engagement with suppliers and customers

The Directors note the importance of fostering strong relationships with the Company's customers and suppliers through open communication and having regard for these relationships in strategic decisions made relating to the Company.

Disclosure of information to auditor

The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each Director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Directors' report (continued)

Auditor

Pursuant to Section 485 of the Companies Act 2006, KPMG LLP were appointed by the Directors of the Company as auditor for the 7 month period to 31 March 2020. The Directors note that the external auditor has issued a qualified opinion on these financial statements as a result of the acquisition of the Company by the Alpha Group in FY 20 and the practicalities associated with the audit of pre-acquisition financial information. The Directors note that this is only to be applied in the year of acquisition and thereafter the Company will issue fully audited financial results from FY 21 onwards. Please refer to the Independent Auditor's Report on pg. 6 for further details of this qualification.

By order of the Board.

John C Paton

15 March 2021

Statement of Directors' responsibilities in respect of the Strategic report and the Directors' report and the financial statements

The Directors are responsible for preparing the Strategic Report and the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 Reduced Disclosure Framework.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Independent auditor's report to the members of Obsidian Solutions Limited

Qualification and disclaimer of opinion

We were engaged to audit the financial statements of Obsidian Solutions Limited ("the Company") for the 7 month period ended 31 March 2020 which comprise the balance sheet, profit and loss account and statement of changes in equity and related notes, including the accounting policies in note 1.

In our opinion, except for the possible effect solely on the comparative information for the year ended 31 August 2019 of the matter described in the basis for modification of opinion section of our report, the financial statements give a true and fair view of the state of the Company's affairs as at 31 March 2020.

Due to the significance of the matter described in the basis for the modification of opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly we do not express an opinion, as to whether the financial statements:

- give a true and fair view of the Company's profit for the 7 month period ended 31 March 2020;
- have been properly prepared in accordance with UK accounting standards including FRS 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for modification of opinion

The audit evidence available to us was limited because adequate accounting records were not kept prior to the Company's acquisition by Alpha Financial Markets Consulting Plc in November 2019. Owing to a change in personnel at the Company following the acquisition and the nature of the company's records, we were unable to obtain sufficient appropriate audit evidence regarding the amounts in the balance sheet as at 31 August 2019 and the amounts in the profit and loss account for the 7 month period ended 31 March 2020. Any adjustments would have a consequential effect on the company's net assets as at 31 August 2019 and on its profit for the year ended 31 August 2019 and the 7 month period ended 31 March 2020. Nevertheless, we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our qualified opinion on the state of the Company's affairs as at 31 March 2020.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements. In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. We have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Company will continue in operation.

Strategic report and Directors' report

The directors are responsible for the Strategic report and the Directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the Strategic report and the Directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge.

Due to the significance of the matters described in the basis for modification of opinion paragraph, and the consequential effect on the related disclosures in the Strategic Report and Directors' Report, although in our opinion the information given in the Strategic Report and the Directors' Report for the financial year is consistent with the financial statements, we do not express an opinion on the preparation of those report in accordance with the Companies Act 2006 or whether we have identified material misstatements in those reports.

Matters on which we are required to report by exception

In respect solely of the limitation on our work referred to above:

- we have not obtained all the information and explanations that we considered necessary for the purpose of our audit;
- in our opinion, adequate accounting records have not been kept; and
- we were unable to determine whether the financial statements are in agreement with the accounting records and returns.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made.

Independent auditor's report to the members of Obsidian Solutions Limited (continued)

Other matter - prior period financial statements

We note that the prior period financial statements were not audited. ISAs (UK) require the auditor to state that the corresponding figures contained within these financial statements are unaudited. Our opinion is not further modified in respect of this matter.

Directors' responsibilities

As explained more fully in their statement set out on page 5, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our responsibility is to conduct an audit of the financial statements in accordance with International Standards on Auditing (UK) ("ISAs (UK)"), and to issue an auditor's report. However, due to the significance of the matter described in the basis for modification of opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements other than on the state of the Company's affairs as at 31 March 2020.

In respect of that qualified opinion, we conducted our audit in accordance with ISAs (UK) and applicable law. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

(forming part of the financial statements)

1 Accounting policies

Obsidian Solutions Limited (the "Company") is a Company limited by shares, domiciled and registered in the UK. The registered number is 09737564 and the registered address is 60 Gresham Street, London, EC2V 7BB.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101"). The Company has transitioned from FRS 102 to FRS 101 in the current period. Further details of the impact of transition are provided in the 'Transition to FRS 101' section below.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company's parent undertaking, Alpha Financial Markets Consulting Plc, includes the Company in its consolidated financial statements. The consolidated financial statements of Alpha Financial Markets Consulting Plc are available to the public and may be obtained from 60 Gresham Street, London, EC2V 7BB.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- A cash flow statement and related notes;
- Comparative period reconciliations for share capital, tangible fixed assets, intangible assets and investment properties;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel; and
- Disclosures of transactions with a management entity that provides key management personnel services to the Company.

As the consolidated financial statements of Alpha Financial Markets Consulting Plc include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 Share Based Payments in respect of Group settled share based payments; and
- Certain disclosures required by IFRS 16 Leases in relation to disclosure of the Company's leasing activities.
- Certain disclosures required by IFRS 3 Business Combinations in respect of business combinations undertaken by the Company.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

There are no judgements made by the Directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year.

1.1 Change in accounting reference date

As a result of the acquisition of Obsidian Solutions Limited by Alpha Financial Markets Consulting Plc during the period, the Directors have effected a change in the accounting reference date of the Company in order to align with the accounting reference date of the wider Group.

The current period consists of the 7 month period from 1 September 2019 to 31 March 2020 in order to effect this change. Therefore, the comparative results for the 12 month period to 31 August 2019 presented within this set of financial statements do not represent an entirely comparable set of results.

1.2 Transition to FRS 101

During the current period, the Company has elected to transition from FRS 102 to FRS 101 following the acquisition of the Company by Alpha Financial Markets Consulting Plc in the financial year.

Impact of transition to FRS 101

The Directors have considered the accounting implications of the transition from FRS 102 to FRS 101. There has been no material accounting impact on the Company as a result of this transition. The Company have changed the revenue recognition policy as a result of the transition, but the impact is not material on the comparative period or the opening balance sheet. This change has been applied retrospectively however a third balance sheet has not been presented due to the immaterial impact noted above. Please refer to section 1.15 for further details.

1.3 Measurement convention

The financial statements are prepared on the historical cost basis.

Notes (continued)

1 Accounting policies (continued)

1.4 Going concern

The financial statements have been prepared on a going concern basis which the Directors consider to be appropriate for the following reasons:

- (a) The Directors have prepared cash flow forecasts for a period of 12 months from the date of approval of these financial statements which indicate that, taking account of reasonably possible downsides including COVID-19 factors, the Company will have sufficient funds to meet its liabilities as they fall due for that period.
- (b) The Directors are confident that the Company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements.

Impact of COVID-19

The Directors note that the World Health Organisation declared a pandemic relating to COVID-19 on 11 March 2020, and social distancing measures were introduced in the UK during March 2020. Therefore, the Directors have considered the significance of the economic ramifications of the virus before the end of the Company's financial year and its potential effect on the financial statements for the year ended 31 March 2020. In particular, the Directors have assessed the impact of incorporating additional COVID-19 risk factors in applying downside sensitivities in the going concern assessment over a period of 12 months after the signing of these financial statements. The Directors have also considered the impact of the pandemic on the expected credit loss calculation on the Company's receivables.

Key assumptions considered by management when assessing going concern include adjusting management's best estimate of forecasted performance for factors including the length and extent of current lockdown restrictions, the resulting general business environment, the speed of recovery of trading after lockdown restrictions ease and utilisation of relevant government support schemes. These have been estimated for their respective impacts on the Company's revenues, fixed and variable costs and resultant expected cash flow requirements.

The Company's forecasts and projections, taking into account reasonable estimate of a possible downturn in trading performance arising from the COVID-19 outbreak, show that the Company has sufficient financial resources, both from the Company's robust balance sheet and its expected cash flow generation, sufficient for the going concern period. The Company also has access to additional funding through other Group entities, via the Group's revolving credit facility and the strength of the Group's cash position at 31 March 2020. Accordingly, the Directors have adopted the going concern basis in preparing these financial statements.

1.5 Foreign currency

The company's functional and presentational currency is GBP.

Transactions in foreign currencies are translated to the Company's functional currencies at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognised in the profit and loss.

1.6 Financial instruments

The Company uses financial instruments comprising cash and cash equivalents, preference shares, loan notes and other short-term instruments, such as trade payables that arise from its operations. The main purpose of these financial instruments is to fund the Group's business strategy and working capital requirements.

Accounting policies in respect of financial instruments are outlined below.

Financial assets

Financial assets are initially measured at fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, transaction costs. The Company has not reclassified any financial assets subsequent to initial recognition as at the balance sheet date. Reclassification of classes of financial assets is accounted for prospectively in accordance with IFRS 9, where this is required. Any difference on reclassification from amortised cost to fair value through profit or loss is recognised in the profit and loss at the reclassification date.

Financial assets are assessed at each reporting date to determine a lifetime expected credit loss that reflects the credit risk associated with the portfolio of assets. A financial asset is impaired in line with the simplified approach under IFRS 9 which uses a lifetime expected loss allowance.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment, impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impairment asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of the impairment to decrease, the decrease in impairment loss is reversed through statement of comprehensive income.

Notes (continued)

1 Accounting policies (continued)

Trade and other debtors

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The provision is recognised in the income statement as an operating charge.

The trade receivables' balances recorded in the Company's statement of financial position comprise a relatively small number of large balances and are held until realised in cash.

Alpha provides services to customers on credit terms with mainly arrears billing. Certain receivables may not be paid. The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure expected credit losses, trade receivables have been grouped based on shared credit characteristics and the days past due. The Company considers historical loss rates for each ageing category as a starting point for estimating the expected credit loss. This historical loss rate is subsequently adjusted for macro-economic and customer specific factors of receivables within each ageing category. Characteristics considered by the Company for these purposes include historical collection experience for each customer, the assessed liquidity of key customers within the receivables balance, and other relevant macro-economic factors such as COVID-19 and Brexit in order to determine a reasonable and supportable assessment of the expected lifetime credit risk in the context of the overall year-end trade receivables due.

Amounts owed by Group undertakings

Amounts owed by Group undertakings are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of intercompany receivables is established using an expected credit loss model. The Group classifies all intercompany receivables that form a part of the normal trading cycle of the Group as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve month period from the balance sheet date. All other amounts owed by Group undertakings are considered as non-current assets. This represents a change in accounting policy in the year. All balances were considered current in the comparative period.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits and are recorded and subsequently measured at amortised cost in line with IFRS 9.

Financial liabilities

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. As at 31 March 2020, the Company had no such financial liabilities.

Other financial liabilities held by the Group are recognised at amortised cost.

Trade and other creditors

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

Amounts owed to Group undertakings

Amounts owed by Group undertakings are recognised initially at fair value and subsequently measured at amortised cost.

Leases

Lease liabilities are recognised on the balance sheet at the present value of minimum lease payments. For further information refer to the 'New Accounting Standards and interpretations' section below on the accounting treatment for leases under IFRS 16.

Comparative period numbers relating to leases were not restated and continue to be presented under IAS 17. FY 19 rentals paid under operating leases are charged to the consolidated statement of comprehensive income on a straight-line basis over the period of the lease. Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight-line basis over the period of the lease.

Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

1.7 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. Land is not depreciated. The estimated useful lives are as follows:

Computer equipment	3 years straight line
--------------------	-----------------------

Depreciation methods, useful lives and residual values are reviewed at each balance sheet date.

Notes (continued)

1 Accounting policies (continued)

1.8 Impairment

Financial assets (excluding trade and other debtors)

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Non-financial assets

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value, less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purposes of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates independent cash inflows (the "cash-generating unit"); that is, cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated to reduce the carrying amounts of the assets in the unit (or group of units) on a pro-rata basis.

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Impairment losses recognised in prior periods are assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.9 Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

1.10 Provisions

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, that can be reliably measured and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects risks specific to the liability.

1.11 Revenue recognition

The Company have implemented a change in accounting policy in the current financial year. For further detail please refer to note 1.15.

1.12 Expenses

Operating lease payments

In the comparative period ended 31 March 2019, payments (excluding costs for services and insurance) made under operating leases were recognised in the profit and loss account on a straight-line basis over the term of the lease. Lease incentives received were recognised in the profit and loss account as an integral part of the total lease expense. In the current year IFRS 16 has been adopted on a modified retrospective basis by the Company. Refer to the 'new accounting standards and interpretations' section below for the accounting treatment of leases in the year ended 31 March 2020.

Notes (continued)

1 Accounting policies (continued)

1.12 Expenses (continued)

Interest receivable and interest payable

Interest payable and similar expenses include interest payable, finance expense on shares classified as liabilities, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy). Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial time to be prepared for use, are capitalised as part of the cost of that asset. In the comparative period ended 31 March 2019, interest arising from finance leases was recognised in profit or loss using the effective interest method. In the current year the Company adopted IFRS 16 on a modified retrospective basis. Refer to the 'new accounting standards and interpretations' section below for the accounting treatment of leases in the year ended 31 March 2020. Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method. Dividend income is recognised in the profit and loss account on the date the entity's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

1.13 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill; the initial recognition of assets or liabilities that affect neither accounting nor taxable profit other than in a business combination, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available.

1.14 New accounting standards and interpretations

The International Accounting Standards Board (IASB) and IFRS Interpretations Committee (IFRIC) have issued the following standards and interpretations which are now effective:

- IFRS 16 Leases (IFRS 16); and
- IFRIC 23 Uncertainty over Income Tax Treatments (IFRIC 23)

The Directors reviewed the nature and effect that these new standards have had on the Company and do not believe that the impact is material. These standards have been adopted by the Company:

IFRS 16 – Leases (effective for periods commencing on or after 1 January 2019)

IFRS 16 Leases is effective for periods beginning on or after 1 January 2019 and is therefore applicable to the current period. This standard replaces accounting treatment for leases previously depicted in IAS 17. IFRS 16 introduced a single lessee accounting model whereby a lessee is required to recognise a right-of-use asset and a lease liability for all leases with a term of more than 12 months. The depreciation on the right-of-use asset will be accounted for separately from the interest expense incurred on the lease liability in the income statement.

Nature of leases within the Company

The Company leases office premises for use in operations. In line with the practical expedients defined below, all office leases held by the company are outside of the scope of IFRS 16 in the current and prior period.

The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Adoption methodology

The Company has adopted IFRS 16 on a modified retrospective approach for transition and has not restated comparative amounts, which are shown under IAS 17. The Company notes that there is no impact of the adoption of IFRS 16 on the Company, as all leases fall under the permitted practical expedients applied. Consequently there is no right-of-use asset or lease liability recognised as a result of the adoption of IFRS 16.

The Company has used the practical expedients permitted by IFRS 16 in relation to accounting for leases with a remaining lease term of less than 12 months as at 1 April 2019 as 'short-term leases', and those with a low value as 'low value leases'. Consequently, no lease liability or right-of-use asset was calculated thereon. These leases are expensed in the statement of profit and loss. The Company has also used the practical expedient permitted by IFRS 16 to apply a single discount rate to a portfolio of leases with reasonably similar characteristics.

Notes (continued)

1 Accounting policies (continued)

1.14 New accounting standards and interpretations (continued)

IFRIC 23 – Uncertainty Over Income Tax Treatments (effective for periods commencing on or after 1 January 2019)

The IFRIC 23 'Uncertainty Over Income Tax Treatments' interpretation is effective for accounting periods beginning on or after 1 January 2019 and provides further clarification on how to apply the recognition and measurement requirements in IAS 12 'Income Taxes'.

IFRIC 23 has not had a material impact on the financial statements for the year ended 31 March 2020.

There are no accounting standards that are not yet effective that would be expected to have a material impact on the Company in the current or next reporting periods.

1.15 Changes in accounting policy

During the period the Company has reassessed the revenue recognition policy applied due to the transition to FRS 101 from FRS 102 in the period to align with the requirements of IFRS 15. For the seven months ended 31 March 2020 the Company have applied the following accounting policy retrospectively for revenue recognition and the associated costs to fulfil. The associated impact on the opening balance sheet position and comparative period P&L is immaterial and therefore no opening balance sheet has been presented. The new accounting policy applied by the Company is as follows:

Revenue consists of the value of work executed for clients during the year and expenses recharged, exclusive of VAT. Revenue is classified into net fee income and recharged expenses. Net fee income is measured based on the transaction price allocated to the performance obligation from the sale of goods or provision of services. Net fee income is recognised either at a 'point in time' when the performance obligation in the contract has been performed or 'over time' as control of the goods or services are transferred to the customer. Recharged expenses comprise the recharge of costs incidental to fulfilling contracts including flights, subsistence and accommodation on which nil or negligible margin is earned by the Company. The Company delivers services that have no alternative use to Alpha (advice to clients, reports, etc) as the services are specifically tailored to clients' projects and scope of work.

Revenue generated from software licensing, hosting and related support services provided over a contracted period of time is combined and allocated to a single performance obligation. These contracts are considered to be satisfied over time, in line with the benefits being transferred to the customer. Revenue is recognised on straight-line basis over the contractual licence term.

Implementation services provided by the Company to the customer are classified as either being distinct performance obligations or non-distinct from the licensing and hosting promises described above, dependent on the fact pattern within the underlying contractual arrangement. The Company considers the level of inter-dependency between the contractual promises, and whether the customer can consume the benefits of the licence without the implementation service being performed. Where implementation services are required for the customer to use the software, these services are considered to be non-distinct from the licensing performance obligation. Therefore, the Company accounts for these as a single performance obligation satisfied over the licence term, as described above. The Company generally considers the initial phase of implementation to be non-distinct from the associated licence. The Company typically bills and receives cash for these implementation services in advance of the revenue being recognised, resulting in the recognition of a contract liability.

Costs directly related to non-distinct implementation work that are incurred prior to the commencement of the licence are initially recognised as an asset within trade and other receivables, and are subsequently amortised through cost of sales on a systematic basis, in line with the transfer of goods or services to the customer.

Other distinct implementation services, as well as separately billable maintenance, support, data assurance and training are treated as separate performance obligations and revenue is recognised as these services are delivered.

Contract modifications relating to the renewal of software licences are accounted for as separate revenue contracts. Other contract modifications are considered on a case by case basis.

Activity performance recognised as revenue in excess of invoices raised are contract receivables and are included within accrued income, up to the value of the relevant project delivery milestone, where applicable. On invoicing, the contract receivable is reclassified to trade receivables. Where amounts have been invoiced in excess of revenue recognised, the excess is a contract liability and is included within deferred income.

In relation to licensing contracts, billing occurs at the beginning of the contractual licence period or incrementally over the course of the licence, in line with the contractual terms. For implementation services, billing typically occurs a month in arrears in line with a contractually agreed schedule.

Revenue is wholly attributable to the principal activities of the Company. For all revenue types, payment is typically due between 30 and 60 days after the invoice date or receipt of invoice, depending on the client and geography.

Notes (continued)

2 Turnover

	FY 20 £000	FY 19 £000
Rendering of services	286	582
<i>By activity</i>		
Licensing and implementation of software and associated services	286	582

3 Auditor's remuneration

	FY 20 £000	FY 19 £000
Audit of these financial statements	13	-

Amounts receivable by the Company's auditor and its associates in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's parent, Alpha Financial Markets Consulting Plc.

4 Staff numbers and costs

The average number of persons employed by the Company (including Directors) during the year, analysed by category, was as follows:

	Number of employees	
	FY 20	FY 19
Administrative	2	2
Sales	-	-
	2	2

The aggregate payroll costs of these persons were as follows:

	FY 20 £000	FY 19 £000
Wages and salaries	132	107
Social security costs	11	6
Contributions to defined contribution plans	-	-
	143	113

All fee-generating work was performed by employed contractors in the current and prior periods.

5 Directors' remuneration

	FY 20 £000	FY 19 £000
Directors' remuneration	7	71
Company contributions to money purchase pension plan	-	-

Notes (continued)

5 Directors' remuneration (continued)

	Number of Directors	
	FY 20	FY 19
Retirement benefits are accruing to the following number of Directors under:		
Money purchase schemes	-	-

The aggregate of remuneration and amounts receivable under Company long term incentive schemes of the highest paid director was £3,000 (FY 19: £27,000)

Amounts paid or payable to the Company's Directors through the Company's parent undertakings have been excluded from the above disclosure and included within the disclosures of other Group companies, on the basis that their services are predominantly provided to the wider Group.

6 Other interest receivable and similar income

	FY 20 £000	FY 19 £000
Interest receivable	1	3

7 Taxation

Recognised in the profit and loss account

	FY 20		FY 19	
	£000	£000	£000	£000
<i>Current tax</i>				
Current tax on income for the period	-	-	-	(18)
Adjustments in respect of prior periods	-	-	-	-
Total current tax	-	-	-	(18)
<i>Deferred tax</i>

At 31 March 2020	<u>5</u>	<u>5</u>
At September 2019	3	3

9 Debtors

	FY 20 £000	FY 19 £000
Trade debtors	28	155
Amounts owed by Group undertakings	191	-
Other debtors	238	183
	<u>457</u>	<u>338</u>

Amounts owed by Group undertakings are interest free and are repayable on demand.

The Company's other debtors balance in the comparative period to 31 August 2019 includes £165,000 related to advances made to the Company's Directors. These were all repaid to the Company during FY 20.

Expected credit loss in relation to amounts owed by Group undertakings was immaterial in both the current and prior year.

Amounts capitalised within other debtors predominantly relate to implementation costs incurred for the fulfilment of the Company's revenue generating contracts. These costs are directly attributable to the fulfilment of these contracts and amount to £188,000 as at 31 March 2020. Capitalised implementation costs are amortised over an expected life, equivalent to the license period. As at 31 March 2020 there is an average amortisation period of 2.7 years remaining.

10 Creditors: amounts falling due within one year

	FY 20 £000	FY 19 £000
Trade creditors	2	-
Amounts owed to Group undertakings	97	-
Taxation and social security	41	33
Deferred income	154	-
Accruals	53	-
Other creditors	-	8
	<u>347</u>	<u>41</u>

Amounts owed to Group undertakings are either interest-bearing or non interest-bearing depending on the type of the creditor relationship and are repayable on demand.

Deferred income recognises contract liabilities arising from the Company's revenue generating activities relating to payments received in advance of performance delivered under a contract. These contract liabilities typically arise on timing differences between satisfaction of the performance obligations relating to software licensing and the underlying billing schedule. The contract liability movement in the year represents these timing differences across contracts at each year end. The following table sets out the revenue recognised in the current year that relates to carry forward contract liabilities and the liabilities recognised in the current year which have been deferred to the next reporting period.

Notes (continued)

10 Creditors: amounts falling due within one year (continued)

	FY 20 £000	FY 19 £000
Contract liabilities relating to contracts with customers at start of period	-	-
Increase in contract liabilities for the period	170	-
Contract liabilities released	(16)	-
	<u>154</u>	<u>-</u>

Unperformed balances represents the revenue that the Company will earn from customers when the Company satisfies the remaining performance obligations in certain contracts. These mainly relate to multi-year contracts which range between 1 to 5 years in which software access revenue is recognised over the access period. The following table sets out the aggregate amount of the contracted transaction price allocated to performance obligations that are unsatisfied or partly satisfied at the year end date. Unperformed balances relating to contracts with an expected original life of less than one year are not disclosed. Similarly, the Company has adopted the practical expedient not to disclose amounts under longer term contracts in which the revenue is to be invoiced on agreed day rates. Revenue from unperformed performance obligations is expected to be recognised in the following timeframes.

	FY 20 £000	FY 19 £000
To be undertaken and recognised within one year	99	55
To be undertaken and recognised between one and three years	106	21
To be undertaken and recognised after three years	-	-
	<u>205</u>	<u>76</u>

11 Other non-current liabilities

	FY 20 £000	FY 19 £000
Preference shares	-	120

The holders of preference shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. On liquidation, preference shares are repaid before ordinary shares. These preference shares are not redeemable and dividends associated with the shares are discretionary. During the current period the Directors have reclassified the preference shares previously recognised as a non-current liability to equity on the basis that after the acquisition of 100% of the issued share capital of the Company by Alpha, these shares are no longer redeemable on demand and in substance are no different to ordinary shares, with the exception of preferred status on liquidation as mentioned above. This change has resulted in the reclassification of £8 in to the Company's share capital, and the transfer of £119,998 to the Company's share premium account.

12 Capital and reserves

Share capital

	FY 20 £	FY 19 £
<i>Allotted, called up and fully paid</i>		
144,219 ordinary shares of £0.001 each	144	142
2 ordinary shares of £0.50 each	1	1
8,475 preferred ordinary shares at £0.001 each	8	-
	<u>153</u>	<u>143</u>
Shares classified in shareholders' funds	<u>153</u>	<u>143</u>
	<u>153</u>	<u>143</u>

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

Notes (continued)

12 Capital and reserves (continued)

In the period, 2,672 fully paid up shares were issued by the Company at nominal value (FY 19: nil).

The holders of preference shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. On liquidation, preference shares are repaid before ordinary shares. These preference shares are not redeemable and dividends associated with the shares are discretionary. During the current period the Directors have reclassified the preference shares previously recognised as a non-current liability to equity on the basis that after the acquisition of 100% of the issued share capital of the Company by Alpha, these shares are no longer redeemable on demand and in substance are no different to ordinary shares, with the exception of preferred status on liquidation as mentioned above. This change has resulted in the reclassification of £8 in to the Company's share capital, and the transfer of £119,998 to the Company's share premium account.

13 Related parties

Identity of related parties with which the Company has transacted

The Company has not engaged in any transactions with any related parties other than with wholly owned subsidiaries. These transactions have not been disclosed as the Company has taken advantage of exemptions under FRS101.

14 Events after the reporting period

The Directors consider that the outbreak of COVID-19 globally represents an adjusting event at the balance sheet date on the basis that the significance of the social and economic impact was apparent at that date. The Group has therefore considered all conditions up to the date of issuance of the financial statements as adjusting events. As disclosed in note 1, the impact of COVID-19 has been assessed in relation to: impairment of non-financial assets, going concern (note 1), and expected credit loss.

15 Ultimate parent company and parent company of larger Group

The Company is a subsidiary undertaking of Alpha Financial Markets Consulting Plc, incorporated in England and Wales. The ultimate controlling party is Alpha Financial Markets Consulting Plc.

Both the largest and smallest Group in which the results of the Company are consolidated is that headed by Alpha Financial Markets Consulting Plc, incorporated in England and Wales. The consolidated financial statements of the Group are available to the public and may be obtained from 60 Gresham Street, London, EC2V 7BB, or the website investors.alphafmc.com.
