OBSIDIAN SOLUTIONS LTD

**DIRECTORS' REPORT
FOR THE YEAR ENDED 31 MARCH 2025**

The Directors present their report and the financial statements for the year ended 31 March 2025

Principal activity

The Company is a subsidiary undertaking within the group headed by Actium Topco (UK) Limited. Its principal activity was the development and provision of software and related services for the asset and wealth management industry. The Company ceased trading during the year. Its activities are now carried out by another company within the group ultimately owned by Actium Topco (UK) Limited.

Results and dividend

For the year ended 31 March 2025, the Company's turnover was £34,000 (2024: £541,000) and profit for the year was £19,000 (2024: £96,000). This profit arose from residual contracts completed before the Company ceased trading during the year.

At 31 March 2025, the Company held net assets of £796,000 (2024: £777,000), principally representing amounts receivable from its parent company.

During the year, no interim dividend was paid (2024: £NIL). The Directors do not recommend the payment of a final dividend (2024: £NIL).

Future developments

The Company does not expect to undertake any further trading activities, following the transfer of operations to other group entities.

Directors

The Directors who served during the year were:

GA Cook
LJ Griggs
JC Paton (resigned 30 June 2025)

Political contributions

The Company made no political donations and incurred no political expenditure during the year (2024: £NIL).

This report was approved by the board and signed on its behalf.

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 MARCH 2025

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

OBSIDIAN SOLUTIONS LTD

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

1. General information

Obsidian Solutions Limited (the "Company") is a Company limited by shares, domiciled and registered in the UK. The registered number is 09737564 and the registered address is 60 Gresham Street, London, EC2V 7BB, United Kingdom

The Directors note that although these financial statements are not prepared on a going concern basis, these financial statements were otherwise prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3)

The following principal accounting policies have been applied

2.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the group's intentions with respect to the continuation of trade within the entity for that period.

During the financial year, the trading activity of the Company ceased, with the operations transferred to other group entities. This transition reflects the evolution and consolidation of the group's market-facing propositions, is a commercial decision taken regarding the group's strategy and is not the result of any concerns regarding the financial performance of the entity. The Directors do not have certainty over the ongoing status of the entity through the entirety of the going concern period.

As a result, and in accordance with paragraph 25 of IAS 1, the Directors conclude that it is not appropriate to adopt the going concern basis for these financial statements, which are instead prepared on a basis that is consistent with IFRS (taking advantage of exemptions available under FRS 101), adjusted to ensure that the assets are stated at the lower of book value and fair value less costs to sell. The Directors have assessed the impact on the financial statements as follows

- *Amounts owed by/to group undertakings* Following the cessation of trading in the Company, there has been no transfer of existing intercompany balances except for on an arms-length basis, and therefore these balances are deemed to be recoverable at face value at the balance sheet date
- *Creditors* The Company's outstanding creditor balance relates to corporation tax, which is deemed to have a fair value that is equivalent to that which would apply on a going concern basis

Further details on the Company's accounting policies and the basis of preparation of these financial statements can be found below

2. Accounting policies (continued)

2.3 Change in balance sheet presentation

In the current year, the Company has adopted the Companies Act 2006 "Format 1" balance sheet presentation, in place of the IAS 1 format applied in the prior year. The comparative balance sheet has been re-presented on the same basis for consistency and comparability. This change is presentational only and has no impact on the Company's financial position, performance, or cash flows.

2.4 Financial Reporting Standard 101 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions under FRS 101

- the requirements of paragraphs 45(b) and 46-52 of IFRS 2 Share-based payment

2. Accounting policies (continued)

2.4 Financial Reporting Standard 101 - reduced disclosure exemptions (continued)

- the requirements of paragraph 88C and 88D of IAS 12 Income Taxes

This information is included in the consolidated financial statements of Actium Topco (UK) Limited as at 31 March 2025 and these financial statements may be obtained from Companies House

2.5 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined

2. Accounting policies (continued)

2.6 Turnover

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the Company and the turnover can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before turnover is recognised:

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

The Company has contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company adjusts the transaction prices of these contracts for the time value of money.

Sale of goods

Turnover from the sale of goods is recognised on the satisfaction of performance obligations, such as the transfer of a promised good, identified in the contract between the Company and the customer.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Rendering of services

Turnover from providing services is recognised in the accounting period in which the services are rendered.

For fixed-price contracts, turnover is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided because the customer receives and uses the benefits simultaneously.

2.7 Interest income

Interest income is recognised in profit or loss using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.8 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits, and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.9 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis

Computer equipment	- 3 years
--------------------	-----------

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

OBSIDIAN SOLUTIONS LTD

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

2 Accounting policies (continued)

2.10 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.11 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.12 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.13 Financial instruments

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below.

Financial assets and financial liabilities are initially measured at fair value.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets.

Impairment of financial assets

The Company always recognises lifetime ECL for trade receivables and amounts due on contracts with customers. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

Financial liabilities

At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The

effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability

2.14 New accounting standards and interpretations

There are no new accounting standards or interpretations that have become effective in the current financial year that have had a material effect on the Company's financial statements. Similarly, no new standards or interpretations have had a material effect on the comparative period presented

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The Directors consider there are no critical accounting judgements or key sources of estimation uncertainty

4. Turnover

An analysis of turnover by class of business is as follows
