Directors' report

The Directors present their report and the audited financial statements for the 15-month period ended 31 March 2022.

Principal activities

The principal activity of the Company continued to be the provision of specialist consultancy services to the alternative investment industry.

Results and dividend

For the 15-month period ended 31 March 2022 (FY 22¹), the Company recorded revenue of £8,352,000 (FY 21: £4,496,000), with a significant increase in the year, reflecting the longer period of account and increased scale of the Company's operations relative to the comparative period. The Company's average headcount has grown to 31 consultants (FY 21: 18), representing a 72% increase on the comparative period. Gross profit margin improved significantly to 41.3% (FY 21: 31.8%) due to strong utilization and rates performance in the year and reflecting the macro-economic environment recovering from the COVID-19 pandemic in the current period. Profit after tax increased 166.4% to £1,908,000 (FY 21: £716,000) again partly reflective of a longer period of account, as well as higher headcount and profitability performance in the current period.

On 20 May 2021, 100% of the share capital of the Company's parent company, Lionpoint Holdings, Inc., was acquired by Alpha Financial Markets Consulting Group Limited, a holding company within the Alpha Group². The Group is a leading global consulting service provider to the asset management, wealth management and insurance industries, and is listed on the Alternative Investment Market of the London Stock Exchange. The Directors further note that the integration of the Company into the Group in the period has been successful and is now largely complete, following a period of transition, aligning of internal processes, and integration of reporting to be consistent with that of the wider Group.

Full results for the year are set out in the profit and loss account on p. 8. No dividends have been paid from or received by the entity during the financial period. The Directors have not recommended the payment of a final dividend (FY 21: Nil).

After deducting taxation, a £1,908,000 profit was transferred to reserves (FY 21: £716,000).

Future developments

The business plan developed by the Directors shows growth is expected to continue in the forthcoming year despite a return in the Company's cost base to pre-COVID-19 levels. The Directors are confident of achieving their plan for the year ahead, based on the level of on-going work at the start of the financial year, the level of work already sold but still to be delivered and the pipeline of future opportunities.

Directors

The Directors who held office during the year were as follows:

JM Balkin

NA Moore

JC Paton (appointed 20 May 2021)

ENB Fraser (appointed 20 May 2021)

N Fienberg (appointed 20 May 2021)

GA Cook (appointed 30 June 2022)

Political contributions

The Company made no political donations or incurred any political expenditure during the year.

Employee involvement

Attracting, retaining and developing the very best people in the industry is integral to the Company's culture and ongoing success. The Company is committed to providing a highly rewarding place to work, and to maintaining a unique and inclusive culture that places people at the heart of the business. To achieve this, there is a strong emphasis on interaction, open communication and the exchange of proactive insights from the employee base.

It is the Company's policy to give full and fair consideration to all applications for employment including from disabled people, having regard to their abilities and aptitudes. Full consideration is given to continuing the employment of staff who become disabled, including considering them for other reasonable positions and arranging appropriate training where required. The Company aims to provide an inclusive environment for all employees, regardless of sex, marital status, race, nationality, age, sexual orientation or religion.

Engagement with suppliers and customers

The Directors note the importance of fostering strong relationships with the Company's customers and suppliers through open communication and having regard for these relationships in strategic decisions made relating to the Company.

¹ FY 22 is the financial year covering the 15 months to 31 March 2022. By comparison, FY 21 is the previous period covering the 12 months to 31 December 2020; FY 23 is the subsequent financial year covering the 12 months to 31 March 2023.

² Group refers to the Company's ultimate parent, Alpha Financial Markets Consulting plc, and its subsidiaries.

Directors' report (continued)

Disclosure of information to auditor

The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each Director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

The Directors note that prior to the acquisition of the Company by the Alpha Group on 20 May 2021, sufficient accounting records were not readily available to enable the Company's auditor to issue an unmodified audit opinion in respect of the amounts in the balance sheet at 31 December 2020 and the amounts in the profit and loss account for the 15 month period to 31 March 2022. The Directors are satisfied with the due diligence work performed by external advisers on the pre-acquisition financial information and, therefore, a full audit of this information was not deemed necessary at the time of acquisition.

Auditor

Pursuant to Section 485 of the Companies Act 2006, KPMG LLP was appointed by the Directors of the Company as auditor for the 15-month period to 31 March 2022.

By order of the Board.

John C Paton
Director

12 October 2022

Statement of Directors' responsibilities in respect of the Directors' report and the financial statements

The directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Directors' report that complies with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report to the members of Lionpoint Group (UK) Limited

Qualification and disclaimer of opinion

We were engaged to audit the financial statements of Lionpoint Group (UK) Limited for the 15 month period ended 31 March 2022 which comprise the profit and loss account, balance sheet and statement of changes in equity and related notes, including the accounting policies in note 1.

In our opinion, except for the possible effect solely on the comparative information for the year ended 31 December 2020 of the matter described in the *Basis for modification of opinion* section of our report, the financial statements give a true and fair view of the state of the Company's affairs as at 31 March 2022.

Due to the significance of the matter described in the *Basis for modification of opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly we do not express an opinion, as to whether the financial statements:

- give a true and fair view of the Company's profit for the 15 month period ended 31 March 2022;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 *Reduced Disclosure Framework*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for modification of opinion

The audit evidence available to us was limited because adequate accounting records have not been retained by the Company for the period prior to the Company's acquisition in May 2021 by Alpha Financial Markets Consulting Group Limited. Consequently we have been unable to obtain sufficient appropriate audit evidence regarding the state of affairs of the Company as at 31 December 2020 and the Company's profit for the 15 month period ended 31 March 2022. Nevertheless, we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our qualified opinion on the state of the Company's affairs as at 31 March 2022.

Going concern

The Directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the Directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate; and
- we have not identified, and concur with the Directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- enquiring of Directors as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud;
- reading Board minutes; and
- using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we perform procedures to address the risk of management override of controls and the risk of fraudulent revenue recognition, in particular the risk that revenue is recorded in the wrong period and the risk that management may be in a position to make inappropriate accounting entries.

We did not identify any additional fraud risks. We performed procedures including:

- identifying journal entries to test based on risk criteria and comparing the identified entries to supporting documentation. These included unusual pairings with a credit or debit to an account below EBITDA and unusual journals with a credit or debit entry to cash; and
- identifying revenue transactions to test based on unusual pairings with a credit or debit to revenue.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, and through discussion with the Directors and other management (as required by auditing standards), and discussed with the Directors and other management the policies and procedures regarding compliance with laws and regulations.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: anti-bribery and employment law recognising the financial nature of the Company's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

The *Qualification and disclaimer of opinion*, *directors' report*, and *Matters on which we are required to report by exception* sections of our report explain the implications of the matter described in the basis for modification of opinion on compliance with the requirements of the Companies Act 2006.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with

Independent auditor's report to the members of Lionpoint Group (UK) Limited (continued)

laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Directors' Report

The Directors are responsible for the Directors' Report. Our opinion on the financial statements does not cover that report and we do not express an audit opinion thereon.

Our responsibility is to read the Directors' Report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge.

Due to the significance of the matter described in the *Basis for modification of opinion* section of our report, and the possible consequential effect on the related disclosures in the Directors' Report, although in our opinion the information given in the Directors' Report for the financial year is consistent with the financial statements, we do not express an opinion on the preparation of that report in accordance with the Companies Act 2006 or whether we have identified material misstatements in that report.

Matters on which we are required to report by exception

In respect solely of the limitation of our work, described above:

- we have not obtained all the information and explanations that we considered necessary for the purpose of our audit;
- in our opinion, adequate accounting records have not been kept; and
- we were unable to determine whether the financial statements are in agreement with the accounting records and returns.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- the Directors were not entitled to take advantage of the small companies exemption from the requirement to prepare a strategic report.

Other matter – prior period financial statements

We note that the prior period financial statements for the year ended 31 December 2020 were not audited. Consequently ISAs (UK) require the auditor to state that the corresponding figures contained within these financial statements are unaudited. Our opinion is not further modified in respect of this matter.

Directors' responsibilities

As explained more fully in their statement set out on page 4, the Directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our responsibility is to conduct an audit of the financial statements in accordance with International Standards on Auditing (UK) ("ISAs (UK)"), and to issue an auditor's report. However, due to the significance of the matter described in the *Basis for modification of opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements other than on the state of the Company's affairs as at 31 March 2022.

In respect of that qualified opinion, we conducted our audit in accordance with ISAs (UK) and applicable law. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

(forming part of the financial statements)

1 Accounting policies

Lionpoint Group (UK) Limited (the "Company") is a Company limited by shares, domiciled and registered in the UK. The registered number is 09869494 and the registered address is 60 Gresham Street, London, United Kingdom, EC2V 7BB.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the Company applies the recognition, measurement, and disclosure requirements of International Financial Reporting Standards ("Adopted IFRSs") but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken. Further, in accordance with Section 414A (2) and 414B (b) of the Companies Act 2006, the Company has taken the exemption from preparing a strategic report.

The Company's parent undertaking, Alpha Financial Markets Consulting Plc, includes the Company in its consolidated financial statements. The consolidated financial statements of Alpha Financial Markets Consulting Plc are available to the public and may be obtained from 60 Gresham Street, London, EC2V 7BB.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- A cash flow statement and related notes;
- Comparative period reconciliations for share capital, tangible fixed assets, intangible assets and investment properties;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel; and
- Disclosures of transactions with a management entity that provides key management personnel services to the Company.

As the consolidated financial statements of Alpha Financial Markets Consulting Plc include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 Share-Based Payment in respect of Group settled share-based payments; and
- Certain disclosures required by IFRS 16 Leases in relation to disclosure of the Company's leasing activities.
- Certain disclosures required by IFRS 3 Business Combinations in respect of business combinations undertaken by the Company.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

There are no judgements made by the Directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year.

1.1 *Change in accounting reference date*

As a result of the acquisition of Lionpoint Group (UK) Limited's parent company by Alpha Financial Markets Consulting Group Limited during the period, the Directors have effected a change in the accounting reference date of the Company in order to align with the accounting reference date of the wider Group.

The current period consists of the 15-month period from 1 January 2021 to 31 March 2022 in order to effect this change. Therefore, the comparative results for the 12-month period to 31 December 2020 presented within this set of financial statements do not represent an entirely comparable set of results.

1.2 *Transition to FRS 101*

During the current period, the Company has elected to transition from FRS 102 to FRS 101 following the acquisition of the Company by Alpha Financial Markets Consulting Group Limited in the financial period.

Impact of transition to FRS 101

The Directors have considered the accounting implications of the transition from FRS 102 to FRS 101. There has been no material accounting impact on the Company as a result of this transition.

1.3 *Basis of preparation*

These financial statements have been prepared under the historical cost basis, except for certain financial instruments that are measured at fair value.

The presentational currency of these financial statements and the functional currency of the Company is pound sterling. All amounts in these financial statements have been rounded to the nearest £1,000, unless stated otherwise.

1.4 *Going concern*

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, cash liquidity and existing undrawn borrowing facilities.

As at 31 March 2022, the Company held considerable financial resources including cash balances of £0.757m. The Company also has access, throughout the going concern period, to a revolving credit facility ("RCF") of £20.0m, through other Group companies, providing further liquidity.

The Company prepared cash flow forecasts covering the going concern period. The base case assumes trading performance over the forecast period in line with average revenue growth in recent years at similar margins, and additionally incorporates future cash flows related to payments due. The Directors considered the principal risks and mitigants and analysed a range of cash flow downside scenarios including a "reverse-stress test" scenario. This models the

Notes (continued)

1 Accounting policies (continued)

1.4 Going concern (continued)

decline in sales that the Company would be able to absorb over the going concern period before utilising all of the existing cash reserves available. The Directors consider this scenario and the sequence of events that could lead to it to be remote, as it requires significant annualised revenue reductions compared to the base case, before modelling any mitigating actions, including cost reductions.

The Directors' have considered the Company's continued growth, and new business pipeline, while also remaining cognisant of the potential macroeconomic uncertainty resulting from recent events in Ukraine, which the Directors do not consider to be a material uncertainty for going concern purposes.

After careful consideration of these scenarios, the Directors have a reasonable expectation that the Company's existing resources are adequate to meet its requirements over the going concern period. On this basis, the Directors consider that it is appropriate to adopt the going concern basis in preparing the financial statements.

1.5 Foreign currency

Transactions in foreign currencies are translated to the Company's functional currencies at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognised in the profit and loss.

1.6 Financial instruments

The Company uses financial instruments comprising cash and cash equivalents, preference shares, loan notes and other short-term instruments, such as trade payables that arise from its operations. The main purpose of these financial instruments is to fund the Group's business strategy and working capital requirements.

Accounting policies in respect of financial instruments are outlined below.

Financial assets

Financial assets are initially measured at fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, transaction costs. The Company has not reclassified any financial assets subsequent to initial recognition as at the balance sheet date. Reclassification of classes of financial assets is accounted for prospectively in accordance with IFRS 9, where this is required. Any difference on reclassification from amortised cost to fair value through profit or loss is recognised in the profit and loss at the reclassification date.

Financial assets are assessed at each reporting date to determine a lifetime expected credit loss that reflects the credit risk associated with the portfolio of assets. A financial asset is impaired in line with the simplified approach under IFRS 9 which uses a lifetime expected loss allowance.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment, impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impairment asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of the impairment to decrease, the decrease in impairment loss is reversed through statement of comprehensive income.

Trade and other debtors

Trade and other debtors are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of trade debtors is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The provision is recognised in the income statement as an operating charge.

The trade debtors' balances recorded in the Company's statement of financial position comprise a relatively small number of large balances and are held until realised in cash.

Alpha provides services to customers on credit terms with mainly arrears billing. Certain receivables may not be paid. The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure expected credit losses, trade debtors have been grouped based on shared credit characteristics and the days past due. The Company consider historical loss rates for each ageing category as a starting point for estimating the expected credit loss. This historical loss rate is subsequently adjusted for macro-economic and customer specific factors of receivables within each ageing category. Characteristics considered by the Company for these purposes include historical collection experience for each customer, the assessed liquidity of key customers within the debtors balance, and other relevant macro-economic factors in order to determine a reasonable and supportable assessment of the expected lifetime credit risk in the context of the overall year-end trade receivables due.

Amounts owed by Group undertakings

Amounts owed by Group undertakings are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of intercompany receivables is established using an expected credit loss model. The Company classifies all intercompany receivables that form a part of the normal trading cycle of the Company as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve-month period from the balance sheet date. All other amounts owed by Group undertakings are considered as non-current assets. This represents a change in accounting policy in the year. All balances were considered current in the comparative period.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits and are recorded and subsequently measured at amortised cost in line with IFRS 9.

Notes (continued)

1 Accounting policies (continued)

1.6 Financial instruments (continued)

Financial liabilities

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. As at 31 March 2022, the Company had no such financial liabilities.

Other financial liabilities held by the Company are recognised at amortised cost.

Trade and other creditors

Trade and other payables are initially recognised at fair value, equal to the transaction price, and are subsequently measured at amortised cost. Trade payables due within one year are not discounted.

Amounts owed to Group undertakings

Amounts owed to Group undertakings are recognised initially at fair value and subsequently measured at amortised cost.

Leases

Lease liabilities are recognised on the balance sheet at the present value of minimum lease payments. All leases held by the Company in both the current and the prior year fall under the permitted practical expedients and therefore are outside of the scope of IFRS 16.

The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

1.7 Tangible fixed assets

All property, plant and equipment are stated at historical cost (or deemed historical cost) less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use.

Depreciation is provided on all property, plant and equipment at rates calculated to write each asset down to its estimated residual value on a straight-line basis at the following annual rates:

Computer Equipment	3 years straight line
Fixtures, fittings, and equipment	3 years straight line

Useful economic lives and estimated residual values are reviewed annually and adjusted as appropriate.

1.8 Impairment (non-financial assets)

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets' recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value, less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purposes of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates independent cash inflows (the "cash-generating unit"); that is, cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses are allocated between the carrying amounts of other assets in the unit (or group of units) on a pro-rata basis as a reduction in the value of the asset.

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Impairment losses recognised in prior periods are assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.9 Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have a legal or constructive obligation to pay further amounts. Contributions to defined contribution schemes are charged to the statement of comprehensive income as they become payable in accordance with the rules of the scheme. Differences between contributions payable in the year and contributions paid are shown as either accruals or pre-payments in the statement of financial position.

The Company operates a profit share bonus and other bonus schemes that aim to pay employees a percentage of an individual's salary, subject to country or regional-level corporate performance in the period. The profit share is accrued in the financial year, based on management's best estimates of the staff bonuses to be paid considering the overall financial performance and is recognised as an employee benefit expense in the consolidated statement of comprehensive income.

Short-term employee benefits, including holiday pay and medical care, are accrued as services are rendered.

Notes (continued)

1 Accounting policies (continued)

1.10 Provisions

Provisions are distinct from other liabilities as there is uncertainty over the timing or amount of the cash outflow required to settle the liability. Provisions are measured at the present value of the expenditure expected to be required to settle the obligation. These are discounted to present value using an appropriate pre-tax discount rate, where the time value of money is material.

1.11 Revenue recognition

Recognition of revenue and client billing

Revenue consists of the value of work executed for clients during the year and expenses recharged, exclusive of VAT. Revenue is classified into net fee income and recharged expenses. Net fee income represents the Company's personnel, subcontractor and related expertise and services sold to clients. Recharged expenses is the recharge of costs incidental to fulfilling contracts including flights, subsistence and accommodation on which nil or negligible margin is earned by the Company.

The Company delivers services that have no alternative use to Alpha (advice to clients, reports, etc) as the services are specifically tailored to clients' projects and scope of work. The significant majority of Alpha's revenue is contracted on a time and materials basis, where the performance obligation is to provide consultancy resources at agreed day rates. In such contracts, revenue is recognised over time, as the number of consultant days worked are delivered. Modifications or extensions to such projects are recognised as delivered. Significant extensions, where the scope or price of the contract increases, are treated as separate contracts. Contracts accounted for on a time and materials basis are billed incrementally, typically monthly, for incurred time and materials.

Revenue recognition for fixed fee projects is based on the actual service provided to the end of the reporting period as a proportion of total services to be provided either over time or in line with internally or externally identified project milestones, depending on the nature of the performance obligations for the project. Material scope changes are managed via a new agreement with the client. Fixed fee projects are typically billed in accordance with the nature of the performance obligations when a right to payment crystallises.

For fixed fee milestone projects, revenue is recognised at a point in time upon delivery of each performance obligation and these projects are billed as contractual milestones are delivered and the right to payment exists.

Revenue is wholly attributable to the principal activities of the Group. For all revenue types, payment is typically due between 30 and 60 days after the invoice date or receipt of invoice, depending on the client and geography.

Recognition of contract receivables

Activity performance recognised as revenue in excess of invoices raised are contract receivables and are included within accrued income, up to the value of the relevant project delivery milestone, where applicable. On invoicing, the contract receivable is reclassified to trade receivables.

Recognition of contract liabilities

Where amounts have been invoiced in excess of work performed and recognised, the excess is a contract liability and is included within deferred income and valued in line with the nature of the project and related performance obligations as described above and recognised in future periods.

1.12 Cost of sales

Cost of sales is defined by management as the direct costs associated with the generation of the Group's revenue, including staff payroll and contractor costs, subsistence and travel that are directly attributable to the delivery of services and supporting growth.

1.13 Expenses

Interest receivable and interest payable

Interest payable and similar expenses include interest payable, unwinding of the discount on provisions, and discount unwinding associated with leases within the scope of IFRS 16. Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method.

Dividends payable

Dividends payable are recognised in the profit and loss account on the date the entity's obligation to pay the dividend is established.

1.14 Taxation

Taxation expense on the result for the period comprises current and deferred tax. Current and deferred tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable or receivable on the taxable income for the period, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities, and when they relate to taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Notes (continued)

1 Accounting policies (continued)

1.15 Prior period restatement

In December 2020 of the comparative period, two payments totalling £143,351 were made by the Company to its parent company and sole shareholder, Lionpoint Holdings, Inc.. These payments were intended to be paid as dividends to the parent company and were accounted for as dividends in the unaudited financial statements filed for the year to 31 December 2020. However, the Company did not have sufficient distributable profits (as defined in the Companies Act 2006) at the time the payments were made. Accordingly, an amount of £143,351 is deemed an intercompany loan repayable to the Company by Lionpoint Holdings, Inc. as at 31 December 2020 and as at 31 March 2022.

The comparative information in these financial statements has been restated to reflect the amount of £143,351 being repayable to the Company. This restatement had the following effect on the financial statements as at 31 December 2020:

- an increase of £143,351 in amounts owed by Group undertakings, included within the debtors line in the balance sheet; and
- a corresponding increase of £143,351 in the profit and loss account within shareholders' funds.

There was no effect on profit for the year ended 31 December 2020 as shown in the profit and loss account.

Subsequently, the Directors of the Company declared a dividend of £143,351 on 4 October 2022. This amount will be payable in full to Lionpoint Holdings, Inc., which remains the sole shareholder of the Company. The dividend will be set off against the £143,351 debtor, such that this amount will no longer be repayable to the Company. Given this subsequent dividend was declared after the balance sheet date of 31 March 2022, this dividend payment is a non-adjusting event after the reporting period as defined by IAS 10 and has not been reflected in these financial statements.

1.16 New accounting standards and interpretations

The following changes in accounting policies were applied by the Company in these financial statements for the year ended 31 March 2022. These included the adoption of new standards and interpretations described below.

The International Accounting Standards Board (IASB) and IFRS Interpretations Committee (IFRIC) have issued the following standards, amendments and interpretations which are now effective:

- Interest Rate Benchmark Reform – Phase 2 - (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16), effective from 1 January 2021;
- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16), effective from 1 January 2021;

The Directors reviewed the nature and effect of these new standards on the Company and noted no material impact on the financial statements for the year ended 31 March 2022.

The Directors have considered new standards and interpretations that have been issued but not yet been effective, however have applied the exemption not to disclose this information under FRS 101.

2 Revenue

	FY 22 £000	FY 21 £000
Rendering of services	8,352	4,496
Rechargeable expenses	-	(47)
	<u>8,352</u>	<u>4,449</u>
	FY 22 £000	FY 21 £000
<i>By activity</i>		
Management consulting	8,352	4,496
	<u>8,352</u>	<u>4,496</u>

3 Auditor's remuneration

	FY 22 £000	FY 21 £000
Audit of these financial statements	19	-
	<u>19</u>	<u>-</u>

Amounts receivable by the Company's auditor and its associates in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's parent, Alpha Financial Markets Consulting Plc.

Notes (continued)

4 Staff numbers and costs

The average number of persons employed by the Company (including Directors) during the year, analysed by category, was as follows:

	Number of employees	
	FY 22	FY 21
Administrative	2	1
Sales	31	18
	<u>33</u>	<u>19</u>

The aggregate payroll costs of these persons were as follows:

	FY 22	FY 21
	£000	£000
Wages and salaries	3,956	1,508
Social security costs	481	174
Contributions to defined contribution plans	113	41
	<u>4,550</u>	<u>1,723</u>

5 Directors' remuneration

The Directors of the Company are paid out of other entities within the Group. The Directors believe that the value of their services in respect of the Company, in both the current and prior periods, were negligible and therefore have not been disclosed.

6 Taxation

Recognised in the profit and loss account

	FY 22	FY 21
	£000	£000
<i>Current tax</i>		
Current tax on income for the period	476	169
Adjustments in respect of prior periods	-	-
Total current tax	<u>476</u>	<u>169</u>

An increase in the UK corporation rate from 19% to 25% (effective 1 April 2023) was substantively enacted on 24 May 2021. Once effective, this change would increase the Company's future current tax charge accordingly.

On 23 September 2022, the UK Government announced revised plans to hold the rate of UK corporation tax at 19%, cancelling the previous plans to increase the rate to 25% from 1 April 2023. This revised plan has not yet been substantively enacted and has no impact on the current or deferred tax charge in the year ended 31 March 2022.

The difference between the total tax expense shown above and the amount calculated by applying the standard rate of UK corporation tax to the profit before tax is as follows:

Reconciliation of effective tax rate

	FY 22	FY 21
	£000	£000
Profit for the year	1,908	716
Total tax expense	476	169
Profit excluding taxation	<u>2,384</u>	<u>885</u>
Tax using the UK corporation tax rate of 19% (FY 21: 19%)	453	168
Non-deductible expenses	23	1
Total tax expense	<u>476</u>	<u>169</u>

Notes (continued)

7 Tangible fixed assets

	Fixtures & Fittings £000	Computer equipment £000	Total £000

At 1 January 2021	-	14	14

8 Debtors

	FY 22 £000	Restated ⁵ FY 21 £000
Trade debtors	1,106	267
Amounts owed by Group undertakings	1,667	459
Other debtors	4	31
Prepayments and accrued income	43	40
	2,820	797

Trade receivables are non-interest bearing and generally have a 30- to 60-day term. Due to their short maturities, the carrying amount of trade and other receivables is a reasonable approximation of their fair value. Trade debtors are stated after an immaterial provision for expected credit losses in both the current and prior years.

Amounts owed by Group undertakings are interest free and are repayable on demand. The Company classifies all intercompany receivables that form a part of the normal trading cycle of the Company as current, as well as non-trading balances where the counterparty has sufficient resources to settle the balance within a twelve month period from the balance sheet date. All other amounts owed by Group undertakings are considered as non-current assets. For both the current and comparative periods, the total amounts owed by Group undertakings to the Company, of £1,667,000 (FY 21: £459,000), is entirely recognised within current debtors.

9 Cash and cash equivalents

	FY 22 £000	FY 21 £000
Cash and cash equivalents	757	156
	757	156

⁵ Please refer to note 1.15 for further information on prior period restatement.

Notes (continued)

10 Creditors: amounts falling due within one year

	FY 22	FY 21
	£000	£000
Trade creditors	34	83
Amounts owed to Group undertakings	54	-
Other creditors	2	-
Taxation and social security	153	141
Accruals and deferred income	977	572
	1,220	796

Trade payables comprise amounts outstanding for trade purchases and ongoing costs. The Directors consider that the carrying amount of trade and other payables is a reasonable approximation of their fair value.

Amounts owed to Group undertakings are either interest-bearing or non-interest-bearing depending on the type of the creditor relationship and local regulatory requirements. At the balance sheet date all of these balances are non-interest-bearing. All amounts owed to Group undertakings are repayable on demand.

Deferred income recognises contract liabilities arising from the Company's revenue generating activities relating to payments received in advance of performance delivered under a contract. These contract liabilities typically arise on short-term timing differences between performance obligations in some milestone or fixed fee contracts and their respective contracted payment schedules. The contract liability movement in the year represents these timing differences across contracts at each year end. As at 31 March 2022 there is an immaterial level of deferred income held on the Company's balance sheet, in addition movements in contract liabilities in the year were immaterial. All current deferred income is expected to be recognised through revenue within one year.

11 Capital and reserves

Share capital

	FY 22	FY 21
	£	£
<i>Allotted, called up and fully paid</i>		
100 ordinary shares of £1 each	100	100
	100	100

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

12 Related parties

Identity of related parties with which the Company has transacted

The Company has not engaged in any material transactions with any related parties other than with wholly owned subsidiaries within the Alpha Group. These transactions have not been disclosed as the Company has taken advantage of exemptions under FRS 101.

13 Ultimate parent Company and parent Company of larger Group

At the balance sheet date, the Company is a subsidiary undertaking of Alpha Financial Markets Consulting Group Ltd, incorporated in England and Wales. The ultimate controlling party is Alpha Financial Markets Consulting Plc. Until the acquisition of the Company by Alpha on 20 May 2021, the ultimate controlling party was Lionpoint Holdings, Inc.

Both the largest and smallest Group in which the results of the Company are consolidated is that headed by Alpha Financial Markets Consulting Plc, incorporated in England and Wales. The consolidated financial statements of the Group are available to the public and may be obtained from 60 Gresham Street, London, EC2V 7BB, or the website investors.alphafmc.com.
