ACTIUM HOLDINGS LIMITED

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2025

Introduction

The Directors present the Company's Strategic Report for the year ended 31 March 2025.

Business review

The Company, Actium Holdings Limited, was formerly named Alpha Financial Markets Consulting plc and was listed on AIM, a market operated by the London Stock Exchange. During the year, the Company was acquired by Actium Bidco (UK) Limited, an indirect subsidiary of certain funds managed by Bridgepoint Advisers Limited. Upon completion of the acquisition, the Company's shares were delisted from AIM, the Company was re-registered as a private limited company, and its name was changed to Actium Holdings Limited. This has been a pivotal period for the business, with Bridgepoint's investment representing a strong endorsement of the Group's strength and future potential.

Following the acquisition, the Company's new ultimate parent undertaking is Actium Topco (UK) Limited. Actium Topco (UK) Limited prepares consolidated financial statements which include the Company. Accordingly, the Company is no longer required to prepare consolidated financial statements itself, nor to comply with the regulatory and governance framework applicable to public companies. These financial statements are therefore prepared on the basis of private company individual accounts and do not consolidate the results of the Company's subsidiaries.

During the year, all outstanding share options in the Company were exercised prior to the Bridgepoint acquisition. As a result, the remaining share-based payment charge in respect of these options was recognised in full, amounting to £8.4m. The majority of this charge was recharged to the Company's subsidiaries, with only a small portion recognised in the Company's statement of comprehensive income in respect of its Directors.

The Company recognised an interest expense of £2.2m (2024: £0.9m) relating to its former revolving credit facility (now repaid and closed) and to the newly issued preference shares, which are accounted for as debt. This was partly offset by £1.2m (2024: £NIL) of interest income on intercompany loans. After tax, the Company recorded a loss for the year of £0.9m (2024: profit of £21.0m).

The Company maintains a strong financial position, with net assets of £168.1m (2024: £160.4m). Its most significant assets comprise investments in subsidiaries and amounts due from other group undertakings, while the principal liabilities relate to amounts owed to other group undertakings.

The Company now serves as an intermediate holding company within the group headed by Actium Topco (UK) Limited and is expected to continue in this role for the foreseeable future.

Key performance indicators

The Directors review the management accounts on a regular basis and compare performance against budget. Utilisation, rates and costs are also monitored to assess profitability.

The Company monitors cash flow, liquidity, and the recovery of trade receivables primarily through regular reviews of working capital across its subsidiaries. The Company itself maintains a strong balance sheet, with net assets of £168.1m (2024: £160.4m).

ACTIUM HOLDINGS LIMITED

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2025

Principal risks and uncertainties

The principal risks and uncertainties faced by the Company and its subsidiaries are outlined below:

- **Competitors** – Risk that a competitor or new entrant may be able to achieve success and win work from the Company's existing clients. Less mature or more specialist propositions, which the Company chooses to develop, may present less of a competitive advantage.
- **Macro** – Risk that wider market, economic, commercial and financial risks can impact the Company's ability to service clients, their demand for consultancy and technology services and, therefore, the Company's own performance and financial position.
- **Quality of service** – Failure to maintain quality of service on client delivery engagements.
- **People** – Risk of failure to attract, incentivise and retain the best people with the right capabilities across all propositions, levels and geographies. A failure to undertake effective succession planning for key roles could also adversely increase this risk and impact performance.
- **Business strategy** – Risk that the Company responds inadequately to changing market factors, including technological advancements, and strategic growth opportunities, including acquisitions. The success of the Group depends on continuing to develop a proposition that best serves its clients.
- **Security** – Risk of cyber-attacks, security breaches and data mishandling, leading to consequent risks to client data, loss of integrity or availability of core data.

Section 172 statement

Under Section 172(1) of the Companies Act 2006, a director of a company must act in the way that they consider, in good faith, would be most likely to promote the success of the company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- The likely consequence of any decision in the long-term;
- The interest of the company's employees;
- The need to foster the company's business relationships with suppliers, customers and others;
- The impact of the company's operations on the community and the environment;
- The desirability of the company maintaining a reputation for high standards of business conduct; and
- The need to act fairly between members of the company.

The following disclosures describe how the directors have had regard to the matters set out in Section 172(1)(a) to (f) and forms the directors' statement under Section 414CZA of the Companies Act 2006.

The Company is a holding company and has no employees or clients of its own at 31 March 2025. The disclosures provided in this statement therefore reflect the Company and its subsidiaries as a group.

ACTIUM HOLDINGS LIMITED

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2025

Engagement with key stakeholders

The Directors consider the Company's key stakeholders to be its employees, clients and the communities in which the Company operates. The Directors also recognise other stakeholder groups including suppliers, industry bodies and competitors. Engaging effectively with all these stakeholder groups strengthens the Company's business relationships and decision making and, therefore, supports its long-term success.

Employees – the Company recognises that attracting, retaining and developing talent is critical to its success. It is committed to providing a rewarding workplace with a strong, inclusive and meritocratic culture. Engagement with employees takes place through feedback frameworks, mentoring, training opportunities, competitive remuneration, promotion opportunities and internal networks.

Clients – the Company's success depends on helping clients address their challenges and capitalise on opportunities. It focuses on building long-term relationships supported by senior-level engagement, regular satisfaction monitoring, ongoing dialogue and roundtable discussions, and the sharing of market and industry insights.

Communities – supporting community development reflects the Company's values and growth objectives. The Company seeks to create a positive social and environmental impact through responsible business practices and engagement with local organisations.

This report was approved by the board and signed on its behalf.

ACTIUM HOLDINGS LIMITED

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2025

The Directors present their report and the financial statements for the year ended 31 March 2025.

Principal activity

The Company is a subsidiary undertaking within the group headed by Actium Topco (UK) Limited. The principal activity of the Company is that of a holding company.

Results and dividends

The loss for the year, after taxation, amounted to £929,000 (2024: profit of £20,959,000).

The results for the year are set out in the Strategic Report. The Directors consider the current state of affairs of the Company to be satisfactory.

During the year, no dividend was paid (2024: £16,246,000).

The Directors have not recommended the payment of a final dividend (2024: £NIL).

Directors

The Directors who served during the year were:

LMJ Baqué
GA Cook (appointed 4 October 2024)
SLP Peacock (appointed 4 October 2024)
MA Byrne (resigned 19 August 2024)
K Fry (resigned 19 August 2024)
PR Judd (resigned 19 August 2024)
JM May (resigned 19 August 2024)
JC Paton (resigned 30 June 2025)

Political contributions

The Company made no political donations and incurred no political expenditure during the year (2024: £NIL).

Environmental matters

In accordance with the Companies Act 2006, the Company has taken the exemption from including disclosures in relation to environmental matters (including those required under the Streamlined Energy and Carbon Reporting Regulations). These disclosures are included in the Strategic Report of the consolidated accounts for the period ended 31 March 2025 of Actium Topco (UK) Limited, the Company's ultimate parent company. That report is publicly available from Companies House.

Future developments

The Directors expect that the Company will continue in existence as a holding company for the foreseeable future, and no significant changes to its activities are currently anticipated.

ACTIUM HOLDINGS LIMITED

**DIRECTORS' REPORT (CONTINUED)
FOR THE YEAR ENDED 31 MARCH 2025**

Engagement with employees

Details of how the Company engages with employees are set out in the Section 172 statement in the Strategic Report.

The Company is committed to ensuring equality of opportunity for all employees and applicants. Full and fair consideration is given to all applications of employment from disabled persons. Appropriate arrangements are made for all disabled person, including those who have become disabled during their employment. The Company is committed to the training and development of disabled persons and ensuring they have the access to the same opportunities as other employees.

Engagement with suppliers, customers and others

The Directors recognise the importance of fostering strong relationships with suppliers, customers and others in a business relationship with the Company. The Directors have regard to these relationships in strategic decision making. During the year, this included maintaining regular open communication and engagement with key stakeholders to ensure continuity of supply and to support customer needs.

Disclosure of information to auditor

Each of the persons who are Directors at the time when this Directors' Report is approved has confirmed that:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware, and
- the Director has taken all the steps that ought to have been taken as a Director in order to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This report was approved by the board and signed on its behalf.

ACTIUM HOLDINGS LIMITED

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 MARCH 2025

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

ACTIUM HOLDINGS LIMITED

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ACTIUM HOLDINGS LIMITED

Opinion

We have audited the financial statements of Actium Holdings Limited ("the Company") for the year ended 31 March 2025 which comprise the Statement of Comprehensive Income, Balance Sheet, Statement of Changes in Equity and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2025 and of its loss for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 *Reduced Disclosure Framework*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

ACTIUM HOLDINGS LIMITED

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ACTIUM HOLDINGS LIMITED (CONTINUED)

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included enquiring of directors and inspection of policy documentation as to the Actium Topco (UK) Limited's policies and procedures to prevent and detect fraud that apply to this group company as well as enquiring whether the directors have knowledge of any actual, suspected or alleged fraud.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because there are no revenue transactions. We did not identify any additional fraud risks.

We performed procedures including agreeing all accounting entries in the period to supporting documentation.

Identifying and responding to risks of material misstatement related to compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the directors (as required by auditing standards), and discussed with the directors the policies and procedures regarding compliance with laws and regulations.

The company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

This company, as a holding company, is not subject to other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

ACTIUM HOLDINGS LIMITED

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ACTIUM HOLDINGS LIMITED (CONTINUED)

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 6, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

ACTIUM HOLDINGS LIMITED

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ACTIUM HOLDINGS LIMITED
(CONTINUED)**

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

ACTIUM HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

1. General information

Actium Holdings Limited (the "Company") is a company limited by shares, domiciled and registered in the UK. The registered number is 09965297 and the registered address is 60 Gresham Street, London EC2V 7BB, United Kingdom.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, access to intercompany funding from other group entities, cash liquidity and existing borrowing facilities.

During the year, following the de-listing of the Company from AIM, the Company transitioned to be an intermediate holding company within the group, with no further trading expected through the going concern period. The Company is in a net assets position, primarily comprising amounts receivable from other group entities. As such, the Company is well positioned to meet its financial liabilities as they fall due, albeit there is a reliance upon the ability of other group companies to settle certain of these outstanding receivables to do so. There are currently no concerns over the recoverability of these intercompany balances. Further, the Company has access to further support through other group entities, and the group's revolving credit facility.

The Directors have therefore considered the cash flow forecasts prepared for the wider group, which support the group's ability to support the Company through the going concern period, if required. These group cash flow forecasts cover the going concern period and are based upon the Board-approved budget for the group and have been appropriately sensitised, as further disclosed in the consolidated Actium Topco (UK) Limited financial statements for the year ended 31 March 2025. These forecasts demonstrate the group has sufficient resources to settle liabilities as they fall due.

After careful consideration, the Directors have a reasonable expectation that the Company's existing resources, supplemented by the support of the wider group, are adequate to meet its requirements over the going concern period. On this basis, the Directors have adopted the going concern basis in preparing the financial statements

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.3 Change in balance sheet presentation

In the current year, the Company has adopted the Companies Act 2006 "Format 1" balance sheet presentation, in place of the IAS 1 format applied in the prior year. The comparative balance sheet has been re-presented on the same basis for consistency and comparability. This change is presentational only and has no impact on the Company's financial position, performance, or cash flows.

2.4 Financial Reporting Standard 101 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of paragraphs 45(b) and 46-52 of IFRS 2 Share-based payment
- the requirements of paragraphs 62, B64(d), B64(e), B64(g), B64(h), B64(j) to B64(m), B64(n)(ii), B64(o)(ii), B64(p), B64(q)(ii), B66 and B67 of IFRS 3 Business Combinations
- the requirements of paragraph 33(c) of IFRS 5 Non Current Assets Held For Sale and Discontinued Operations
- the requirement of paragraph 24(b) of IFRS 6 Exploration for and Evaluation of Mineral Resources to disclose the operating and investing cash flows arising from the exploration for and evaluation of mineral resources
- the requirements of IFRS 7 Financial Instruments: Disclosures
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement
- the requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers
- the requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 90, 91 and 93 of IFRS 16 Leases. The requirements of paragraph 58 of IFRS 16, provided that the disclosure of details in indebtedness relating to amounts payable after 5 years required by company law is presented separately for lease liabilities and other liabilities, and in total
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of:
 - paragraph 79(a)(iv) of IAS 1;
 - paragraph 73(e) of IAS 16 Property, Plant and Equipment;
 - paragraph 118(e) of IAS 38 Intangible Assets;
 - paragraphs 76 and 79(d) of IAS 40 Investment Property; and
 - paragraph 50 of IAS 41 Agriculture
- the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements
- the requirements of IAS 7 Statement of Cash Flows
- the requirements of paragraph 74A(b) of IAS 16
- the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member
- the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.

ACTIUM HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.4 Financial Reporting Standard 101 - reduced disclosure exemptions (continued)

- the requirements of paragraph 88C and 88D of IAS 12 Income Taxes.

This information is included in the consolidated financial statements of Actium Topco (UK) Limited as at 31 March 2025 and these financial statements may be obtained from Companies House.

2.5 Exemption from preparing consolidated financial statements

The Company is a parent company that is also a subsidiary included in the consolidated financial statements of a larger group by a parent undertaking established under the law of any part of the United Kingdom and is therefore exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006.

2.6 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of Comprehensive Income within 'finance income or costs'. All other foreign exchange gains and losses are presented in profit or loss within 'other operating income'.

2.7 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.8 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.9 Share-based payments

The cost of share-based employee compensation arrangements, whereby employees receive remuneration in the form of shares or share options, is recognised as an employee benefit expense in the profit & loss account.

The total expense to be apportioned over the vesting period of the benefit is determined by reference to the fair value (excluding the effect of non-market-based vesting conditions) at the date of grant.

At the end of each reporting period the assumptions underlying the number of awards expected to vest are adjusted for the effects of non-market-based vesting conditions to reflect the conditions prevailing at that date. The impact of any revisions to the original estimates is recognised in profit or loss, with a corresponding adjustment to equity. Fair value is measured by the use of a binomial model. The assumptions have been adjusted, based on management's best estimate, for the effects of non-transferability, lack of dividend until vesting and exercise restrictions.

After vesting, the Company satisfies share option exercises either through the issuance of new ordinary shares, or through the transfer of existing shares held in the Company's employee benefit trust to the employee.

An associated employers' social security tax liability on these share options is accrued through the vesting period to align with the payment due upon exercise.

The Company applies an intra-group recharge arrangement to the share-based payments charge relating to employees of subsidiary companies, to reflect the benefits received by the respective entity in relation to employees granted share options.

The Company is deemed to be the settling entity in the intra-group arrangement, as share options granted are in relation to ordinary shares of the Company, and recognises the share-based payments charge for the full group in other reserves. The Company's subsidiaries are considered to be the receiving entities in the arrangement, in line with the benefit received for services provided through ongoing employment.

Amounts relating to employees who provide services directly to the Company are recorded as an equity-settled share-based payment charge through the Company's statement of comprehensive income and are not recharged.

The remaining charge in relation to employees who provide services to subsidiary companies is initially recognised as an investment in subsidiaries and is simultaneously reversed upon the recharge of this cost to the receiving entity through amounts owed by Group undertakings. This charge is recognised within the profit and loss of the relevant receiving entities.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.10 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss, except in relation to share-based payments where the amount of the tax deduction exceeds the amount of the related cumulative share-based payment charge, in which case it is recognised in equity.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.11 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.12 Preference shares

The Company has issued euro-denominated preference shares, with a total subscription amount of €52.2m. The preference shares accrue a cumulative dividend at an annual rate of EURIBOR plus a margin. The dividend accrues and compounds over time to the extent it is not paid, and is payable in full on redemption.

The preference shares are redeemable in full in 2031. In accordance with IAS 32, the preference shares meet the definition of a debt instrument, as they give rise to a contractual right to receive cash from the issuer. The existence of both a fixed redemption date and a fixed return means that, in substance, the preference shares represent debt instruments rather than equity investments.

The preference shares are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, in line with IFRS 9. Accrued dividends on the preference shares are recognised in profit and loss within interest receivable.

The euro-denominated balance is retranslated into pounds sterling at each balance-sheet date, with any resulting foreign exchange gains or losses recognised within interest income or expense.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025**

2. Accounting policies (continued)

2.13 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.14 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.15 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.16 Financial instruments

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below:

Financial assets and financial liabilities are initially measured at fair value.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets.

Fair value through profit or loss

All of the Company's financial assets are subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses being recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset.

Impairment of financial assets

The Company always recognises lifetime ECL for trade receivables and amounts due on contracts with customers. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

ACTIUM HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.16 Financial instruments (continued)

Financial liabilities

Fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss, when the financial liability is held for trading, or is designated as at fair value through profit or loss. This designation may be made if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise, or the financial liability forms part of a group of financial instruments which is managed and its performance is evaluated on a fair value basis, or the financial liability forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at fair value through profit or loss. Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability.

2.17 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

2.18 New accounting standards and interpretations

There are no new accounting standards or interpretations that have become effective in the current financial year that have had a material effect on the Company's financial statements. Similarly, no new standards or interpretations have had a material effect on the comparative period presented.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The preparation of financial information in accordance with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses.

The Directors have made no judgements, excluding those involving estimations, in the process of applying the Company's accounting policies that are considered to have a significant effect on the amounts recognised in the financial statements for the year ended 31 March 2025.

The Directors consider that there is no material level of estimation uncertainty associated with the Company's financial statements at the balance sheet date.

ACTIUM HOLDINGS LIMITED

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025**

4. Auditor's remuneration

During the year, the Company obtained the following services from the Company's auditor and its associates:

	2025 £000	2024 £000
Fees payable to the Company's auditor and its associates for the audit of the Company's financial statements	16	155

5. Directors' remuneration

	2025 £000	2024 £000
Directors' emoluments	526	1,158
Amounts receivable under long-term incentive schemes	4,638	644
Company contributions to defined contribution pension schemes	18	42
	5,182	1,844

During the year retirement benefits were accruing to 2 Directors (2024:1) in respect of defined contribution pension schemes.

The highest paid Director received remuneration of £3,385,000 (2024:£1,210,000), including gains on long-term incentive schemes but excluding pension contributions.

The value of the Company's contributions paid to a defined contribution pension scheme in respect of the highest paid Director amounted to £17,000 (2024:£42,000).

Two Directors providing material qualifying services exercised share options during the year.

Certain Directors of the Company are also Directors of other group companies and are remunerated by other group companies. Where Directors have provided qualifying services to the Company, an appropriate proportion of their total remuneration has been allocated and disclosed in these financial statements, based on the estimated time spent and level of service provided to the Company.

6. Interest receivable

	2025 £000	2024 £000
Interest receivable from group companies	1,158	-

8. Taxation (continued)

Factors affecting tax charge for the year

The tax assessed for the year is lower than (2024: lower than) the standard rate of corporation tax in the UK of 25% (2024 - 25%). The differences are explained below:

	2025 £000	2024 £000
(Loss)/profit on ordinary activities before tax	(1,031)	20,726
(Loss)/profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 25% (2024 - 25%)	(258)	5,182
Effects of:		
Expenses not deductible for tax purposes	431	33,805
Non-taxable income	-	(39,220)
Adjustment in respect of prior periods	(160)	-
Share options adjustments	(115)	-
Total tax charge for the year	(102)	(233)

9. Fixed asset investments

	Investments in subsidiary companies £000
Cost or valuation	
At 1 April 2024	70,493
At 31 March 2025	70,493

During the year, amounts recognised in relation to the share-based payment charge, which are subsequently reversed through intra-group recharge arrangements, were £8.3m (2024: £6.6m). These amounts are presented net in the table above in line with the Company's accounting policies.

1,929,937 ordinary shares with a nominal value of £0.00075 each were issued during the year.

	2025 £	2024 £
Shares classified as debt		
Allotted, called up and fully paid		
52,232,400 (2024: NIL) Preference shares of €0.01000 each	436,322	-

52,232,400 preference shares with a nominal value of €0.01 each were issued on 19 August 2024. The preference shares are classified as debt and are presented within creditors. The euro-denominated balance is retranslated into pound sterling at the exchange rate prevailing at each balance sheet date.

16. Share-based payments

Previously, when listed on AIM, the Company operated share option plans in which employees of the Company and its subsidiaries participated. These share option plans are described below. During the year, all outstanding share options in the Company were exercised prior to the Bridgepoint acquisition. As a result, the remaining share-based payment charge in respect of these options was recognised in full, amounting to £8.4m. The majority of this charge was recharged to the Company's subsidiaries, with only £0.1m recognised in the Company's statement of comprehensive income in respect of its Directors.

Management incentive plan

The Company had a management incentive plan ("MIP") to retain and incentivise Directors and senior management. The MIP consisted of four parts: part A of which enabled the granting of enterprise management incentive and non-tax advantaged options to acquire shares; part B of which enabled the awarding of JSOPs; part C of which enabled the awarding of restricted stock units ("RSUs") for participants in the US; and part D of which enabled the awarding of RSUs in France (together the "share options").

The share options were subject to performance conditions, including specific business unit EBITDA, earnings per share growth, personal adherence to corporate values, alongside a total shareholder return condition.

MIP awards have a nominal exercise price payable to acquire shares under the share option terms. Under normal circumstances the share options vested over a period of three to four years from the date of grant. In the current year the share options vested earlier as a result of the Bridgepoint acquisition. The share options are equity settled.

ACTIUM HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025

16. Share-based payments (continued)

Employee incentive plan

In addition to the MIP, the Company previously had in place a medium-term employee incentive plan ("EIP"). Under the EIP, a broad base of the Group's employees were granted share options over a small number of shares. The EIP is structured as is most appropriate under the local tax, legal and regulatory rules in the key jurisdictions and therefore varies between those jurisdictions.

Movements in the year

	No.
Outstanding at the beginning of the year	11,227,844
Granted in the year	-
Forfeited in the year	(1,933,548)
Exercised in the year	(9,294,296)
Outstanding at the end of the year	-

Forfeits in the year are due to the performance conditions in respect of the MIP awards granted in 2024 not being met, which was determined by the Company's Remuneration Committee.

For share options exercised during the period, the weighted average share price at the date of exercise was £5.05.

Effect on profit or loss and financial position

The Company recognised a total share-based payments charge of £8.4m (2024: £6.7m), of which £8.3m (2024: £6.6m) was recharged to subsidiary companies and £0.1m (2024: £0.1m) was recognised in the Company's statement of comprehensive income.

The Company also recognised an expense of £0.1m (2024: credit of £0.1m) in relation to the relevant social security taxes associated with the share-based payments. As at 31 March 2025, the remaining share-based payments related social security liability was £NIL (2024: £0.4m).

17. Reserves

Share premium account

Share premium comprises the excess of consideration received over the nominal value of shares issued, net of directly attributable transaction costs incurred in the issuance of those shares.

Other reserves

Other reserves represent the cumulative value of the IFRS 2 share-based payment charge recognised by the Company, associated current and deferred tax, net settlement of vested share options, equity-settled acquisition consideration reserves and purchases of the Company's own shares by the employee benefit trust.

ACTIUM HOLDINGS LIMITED

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2025**

17. Reserves (continued)

Profit and loss account

Profit and loss account represents the cumulative net loss, as recognised in the statement of comprehensive income, net of dividends and other distributions.

18. Related party transactions

The Company has not engaged in any transactions with any related parties other than with wholly owned subsidiaries within the Actium Topco (UK) Limited group, and remuneration of the Company's key management personnel. These transactions have not been disclosed as the Company has taken advantage of exemptions under FRS 101.

19. Controlling party

As at 31 March 2025, the ultimate parent company and controlling party was Actium Topco (UK) Limited, a company incorporated in England and Wales.

Both the largest and smallest Group in which the results of the Company are consolidated is that headed by Actium Topco (UK) Limited. The consolidated financial statements of the Group are available to the public and may be obtained from Companies House.
