Director

Bankside Financial Solutions Consulting Limited

Strategic Report for the Year Ended 31 August 2020

The directors present their strategic report for the year ended 31 August 2020.

Principal activity

The principal activity of the company is Placing contractors and supporting business activities

Fair review of the business

The principal activities of the company are the supply of consultancy resources to the Investment/Asset Management and security services industry, to deliver technology change and onboarding projects. The company has experienced strong demand during 2019/2020 and have developed our presence at our principle client to become their third largest supplier of resources, as well as attracting new clients. This has led to turnover increasing by 367% and profits greatly exceeding targets.

In Q1 2020 and in response to the potential changes in IR35 legislation, Bankside reviewed payroll and umbrella options in the market and concluded that it would be in the best interests of our consultants, both financially and from a service perspective, to create our own payroll company. To that end, a subsidiary called Bankside Payroll was set up to provide payroll services to employed consultants. This now supports almost a third of our workforce.

The company continues to expand and is actively engaged in discussions with new prospective clients and potential strategic partnerships. The pipeline of business with existing clients is strong for next year, with like-for-like levels of existing demand already confirmed for Q1/Q2 2021. The board will also continue to look at acquisition opportunities through the coming year.

Principal risks and uncertainties

The company's directors do not believe the appetite for change projects will be adversely affected by the impact of Brexit, indeed the opposite may be true. 2020 has seen strong growth for the company in spite of the global COVID-19 pandemic although the wider economic impact of this sharp retraction in growth will inevitably lead to a tightening of budgets for discretionary projects in 2021.

The government is due to review the IR35 legislation again in 2021, which may impact the way workers in the industry are paid from April. Although the company is prepared for this outcome, this may create uncertainty and turbulence in the supply chain until such time as this has been decided.

Approved by the Board on 25 November 2020 and signed on its behalf by:

**Accountants' Report to the Board of Directors on the Preparation of the Unaudited
Statutory Accounts of
Bankside Financial Solutions Consulting Limited
for the Year Ended 31 August 2020**

In order to assist you to fulfil your duties under the Companies Act 2006, we have prepared for your approval the financial statements of Bankside Financial Solutions Consulting Limited for the year ended 31 August 2020 as set out on pages 5 to 12 from the company's accounting records and from information and explanations you have given us.

As a practising member firm of the Association of Accounting Technicians, we are subject to its ethical and other professional requirements which are detailed at <https://www.aat.org.uk/about-aat/professional-standards>.

This report is made solely to the Board of Directors of Bankside Financial Solutions Consulting Limited, as a body, in accordance with the terms of our engagement letter. Our work has been undertaken solely to prepare for your approval the accounts of Bankside Financial Solutions Consulting Limited and state those matters that we have agreed to state to the Board of Directors of Bankside Financial Solutions Consulting Limited, as a body, in this report in accordance with ICAEW Technical Release 07/16 AAF. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Bankside Financial Solutions Consulting Limited and its Board of Directors as a body for our work or for this report.

It is your duty to ensure that Bankside Financial Solutions Consulting Limited has kept adequate accounting records and to prepare statutory accounts that give a true and fair view of the assets, liabilities, financial position and profit of Bankside Financial Solutions Consulting Limited. You consider that Bankside Financial Solutions Consulting Limited is exempt from the statutory audit requirement for the year.

We have not been instructed to carry out an audit or a review of the accounts of Bankside Financial Solutions Consulting Limited. For this reason, we have not verified the accuracy or completeness of the accounting records or information and explanations you have given to us and we do not, therefore, express any opinion on the statutory accounts.

Bankside Financial Solutions Consulting Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 August 2020

1 General information

The company is a private company limited by share capital, incorporated in England and Wales.

The address of its registered office is:

130 Old Street
London
EC1V 9BD
United Kingdom

These financial statements were authorised for issue by the Board on 25 November 2020.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

The company recognises revenue when:

The amount of revenue can be reliably measured;

it is probable that future economic benefits will flow to the entity;

and specific criteria have been met for each of the company's activities.

Tax

The tax expense for the period comprises current tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Bankside Financial Solutions Consulting Limited

Notes to the Unaudited Financial Statements for the Year Ended 31 August 2020

Investments

Investments in equity shares which are publicly traded or where the fair value can be measured reliably are initially measured at fair value, with changes in fair value recognised in profit or loss. Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment. Interest income on debt securities, where applicable, is recognised in income using the effective interest method. Dividends on equity securities are recognised in income when receivable.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Trade debtors

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

3 Staff numbers

The average number of persons employed by the company (including directors) during the year, was 1 (2019 - 0).
