¹ FY 24 is the period from 3 February 2023 to 31 March 2024. FY 25 is the subsequent financial year covering the 12 months to 31 March 2025.

Statement of Directors' responsibilities in respect of the Directors' report and the financial statements

The Directors are responsible for preparing the strategic report and the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

General Information

Alpha Financial Markets Consulting MENA Limited (the "Company") is a company limited by shares, domiciled and registered in the UK. The registered number is 14638009 and the registered address is 60 Gresham Street, London, EC2V 7BB, United Kingdom.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

Basis of preparation

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company's ultimate parent undertaking, Alpha Financial Markets Consulting plc, includes the Company in its consolidated financial statements. The consolidated financial statements of Alpha Financial Markets Consulting plc are available to the public and may be obtained from 60 Gresham Street, London, EC2V 7BB, United Kingdom or on the website at alphafmc.com/investors.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- A cash flow statement and related notes;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRS;
- The requirements of paragraphs 17 and 18A of IAS 24 Related Party Disclosures; and
- The requirements in IAS 24 to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member.

As the consolidated financial statements of Alpha Financial Markets Consulting plc include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- The requirements of IFRS 7 Financial Instruments: Disclosures.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

These financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at fair value.

The presentational currency of these financial statements and the functional currency of the Company is United Arab Emirates Dirham (AED). All amounts in these financial statements have been rounded to the nearest AED 1,000, unless stated otherwise.

Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, access to intercompany funding from other Group entities, cash liquidity and existing borrowing facilities.

Notwithstanding net current liabilities of £0.1m as at 31 March 2024, the financial statements have been prepared on a going concern basis. The Directors consider this to be appropriate on the basis of cash flow forecasts prepared for the wider Group, which support the ability of the Company to operate as a going concern. The Group prepared cash flow forecasts covering the going concern period, which have been revised to reflect the acquisition of the Group by Actium Bidco (UK) Limited after the reporting date, as disclosed in note 8, including the restructuring of the Group's financing arrangements through the going concern period. The Directors of the Group considered the principal risks and mitigants and analysed a base case, reflecting the Group's board approved budget for the going concern period, as well as a reasonably possible downside scenario. This downside scenario models a 20% reduction in Group forecast revenue with some limited cost mitigants applied. These modelled mitigants consist of a hiring freeze alongside a partial reduction in the Group's discretionary profit share bonus payment budgeted for the FY 25 performance year, with the Group's underlying cost base unaffected. In this reasonable downside scenario, the Group has relied upon access to funding of up to £10.0m from the Group's available £50.0m RCF through the going concern period. No covenant breaches have been identified in either scenario.

The Directors consider this reasonably possible scenario and the sequence of events that could lead to it to be remote. There remains significant headroom on the Group's RCF to facilitate further liquidity, as well as scope for further mitigating cost actions to be taken on the underlying cost base, if required.

The ability of the Company to settle its liabilities as they fall due within the going concern period is dependent on the financial support of the Company's ultimate parent company. The Company also has access to additional funding through other Group entities, via the Group's revolving credit facility ("RCF") of £50.0m. As with any company placing reliance on other group entities for financial support, the Directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial

statements, they have no reason to believe that it will not do so.

After careful consideration, the Directors have a reasonable expectation that the Company's existing resources, supplemented by the support of the wider Group, are adequate to meet its requirements over the going concern period. On this basis, the Directors consider that it is appropriate to adopt the going concern basis in preparing the financial statements.

Principal accounting policies

Significant judgements and estimates

The preparation of financial information in accordance with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses.

The Directors have made no judgements, excluding those involving estimations, in the process of applying the Company's accounting policies that are considered to have a significant effect on the amounts recognised in the financial statements for the period ending 31 March 2024. There are no major sources of estimation uncertainty at the end of the reporting period that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the average foreign exchange rate in the month of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the average exchange rate in the month of the transaction and are not retranslated. Foreign exchange differences arising on translation to functional currency are recognised in administration expenses.

Financial instruments

The Company uses financial instruments comprising cash and cash equivalents and other short-term instruments, such as trade payables that arise from its operations. The main purpose of these financial instruments is to fund the Company's business strategy and working capital requirements.

Accounting policies in respect of financial instruments are outlined below.

Financial assets

Financial assets are initially measured at fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, transaction costs. The Company has not reclassified any financial assets subsequent to initial recognition as at the balance sheet date. Reclassification of classes of financial assets is accounted for prospectively in accordance with IFRS 9, where this is required. Any difference on reclassification from amortised cost to fair value through profit or loss is recognised in the profit and loss at the reclassification date.

Financial assets are assessed at each reporting date to determine a lifetime expected credit loss that reflects the credit risk associated with the portfolio of assets. A financial asset is impaired in line with the simplified approach under IFRS 9 which uses a lifetime expected loss allowance.

The Company recognises an expected credit loss provision in relation to financial assets. The simplified method is applied to the Company's trade receivables as described below. The Company's expected credit loss provision on all other financial assets is immaterial as the probability of default is low. Movements in the expected credit loss provision are recognised in profit or loss.

Financial liabilities

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. As at 31 March 2024, the Company had no derivative financial instruments or designated hedge relationships.

Other financial liabilities held by the Company are recognised at amortised cost.

Trade and other payables

Trade and other payables are initially recognised at fair value, equal to the transaction price, and are subsequently measured at amortised cost. Trade payables due within one year are not discounted.

Cost of sales

Cost of sales is defined by management as the direct costs associated with the generation of the Company's revenue, including staff payroll and contractor costs, that are directly attributable to the delivery of services and supporting growth.
