STRATEGIC REPORT FOR THE PERIOD ENDED 31 MARCH 2025

Introduction

The Directors present the Company's Strategic Report for the period ended 31 March 2025.

Business review

The Company is a subsidiary undertaking within the group headed by Actium Topco (UK) Limited and acts as a holding company. The Company was incorporated in the period as part of a holding company structure established to acquire Alpha Financial Markets Consulting plc

Profit for the period amounted to £NIL as interest receivable offsets interest payable

Key performance indicators

The Directors review the management accounts on a regular basis and compare performance against budget. Utilisation, rates and costs are also monitored to assess profitability.

The Company monitors cash flow, liquidity, and the recovery of trade receivables primarily through regular reviews of working capital across its subsidiaries. The Company itself maintains a strong balance sheet, with net assets of £238,790,000.

Principal risks and uncertainties

The principal risks and uncertainties faced by the Company are outlined below:

- **Competitors** – Risk that a competitor or new entrant may be able to achieve success and win work from the Company's existing clients. Less mature or more specialist propositions, which the Company chooses to develop, may present less of a competitive advantage.
- **Macro** – Risk that wider market, economic, commercial and financial risks can impact the Company's ability to service clients, their demand for consultancy and technology services and, therefore, the Company's own performance and financial position.
- **Quality of service** – Failure to maintain quality of service on client delivery engagements.
- **People** – Risk of failure to attract, incentivise and retain the best people with the right capabilities across all propositions, levels and geographies. A failure to undertake effective succession planning for key roles could also adversely increase this risk and impact performance.
- **Business strategy** – Risk that the Company responds inadequately to changing market factors, including technological advancements, and strategic growth opportunities, including acquisitions. The success of the Group depends on continuing to develop a proposition that best serves its clients.
- **Security** – Risk of cyber-attacks, security breaches and data mishandling, leading to consequent risks to client data, loss of integrity or availability of core data.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

1. General information

Actium Midco 2 (UK) Limited (the "Company") is a Company limited by shares, domiciled and registered in the UK. The registered number is 15735686 and the registered address is 60 Gresham Street, London, EC2V 7BB, United Kingdom.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

2 Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, access to intercompany funding from other group entities, cash liquidity and existing borrowing facilities.

The Company is a holding company with no trading activity of its own, and as such its liabilities and other obligations are to be funded by amounts due from subsidiaries. The Directors have adopted the going concern basis for these accounts based on cash flow forecasts prepared for the wider group, which support the ability of the other group entities to settle these receivables, and therefore for the Company to continue as a going concern.

The Directors have therefore considered the cash flow forecasts prepared for the wider group, which support the ability of the group to provide this support to the Company through the going concern period. These group cash flow forecasts cover the going concern period and are based upon the Board-approved budget for the group and have been appropriately sensitised, as further disclosed in the consolidated Actium Topco (UK) Limited financial statements for the year ended 31 March 2025. These forecasts demonstrate the group has sufficient resources to settle liabilities as they fall due.

After careful consideration, the Directors have a reasonable expectation that the Company's existing resources, supplemented by the support of the wider group, are adequate to meet its requirements over the going concern period. On this basis, the Directors have adopted the going concern basis in preparing the financial statements.

ACTIUM MIDCO 2 (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.4 Exemption from preparing consolidated financial statements

The Company is a parent company that is also a subsidiary included in the consolidated financial statements of a larger group by a parent undertaking established under the law of any part of the United Kingdom and is therefore exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006

2.5 Interest income

Interest income is recognised in profit or loss using the effective interest method

2.6 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.7 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment

2.8 Financial instruments

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below

Financial assets and financial liabilities are initially measured at fair value.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets

Fair value through profit or loss

All of the Company's financial assets are subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses being recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset

Impairment of financial assets

The Company always recognises lifetime ECL for trade receivables and amounts due on contracts with customers. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument

ACTIUM MIDCO 2 (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.8 Financial instruments (continued)

Financial liabilities

Fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss, when the financial liability is held for trading, or is designated as at fair value through profit or loss. This designation may be made if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise, or the financial liability forms part of a group of financial instruments which is managed and its performance is evaluated on a fair value basis, or the financial liability forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at fair value through profit or loss. Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability.

2.9 New accounting standards and interpretations

As the Company was incorporated at the start of the current period and this is the Company's first set of financial statements, the accounting policies set out above were adopted for the first time in the period. As such, there were no changes in accounting policies in the period.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The directors consider there are no critical accounting judgements or key sources of estimation uncertainty.

4. Directors' remuneration

No directors received any remuneration from the company during the period. The directors are remunerated by other group companies and did not provide any material qualifying services to the Company during the period.
