STRATEGIC REPORT FOR THE PERIOD ENDED 31 MARCH 2025

Introduction

The Directors present the Company's Strategic Report for the period ended 31 March 2025

Business review

The Company is a subsidiary undertaking within the group headed by Actium Topco (UK) Limited and acts as a holding company. It was incorporated during the period as part of a new group structure established to acquire Alpha Financial Markets Consulting plc.

During the period, the Company completed the acquisition of Alpha Financial Markets Consulting plc for total consideration of £625.9m, funded through a combination of equity and debt. Following the acquisition, the Company commenced the provision of management services to other group entities.

The income generated from management services was more than offset by exceptional acquisition-related costs and interest expenses on the Company's borrowings, resulting in a loss for the period of £43.4m.

Key performance indicators

The Directors review the management accounts on a regular basis and compare performance against budget. Utilisation, rates and costs are also monitored to assess profitability.

The Company monitors cash flow, liquidity, and the recovery of trade receivables primarily through regular reviews of working capital across its subsidiaries. The Company itself maintains a strong balance sheet, with net assets of £70.9m.

Principal risks and uncertainties

The principal risks and uncertainties faced by the Company are outlined below:

- **Competitors** – Risk that a competitor or new entrant may be able to achieve success and win work from the Company's existing clients. Less mature or more specialist propositions, which the Company chooses to develop, may present less of a competitive advantage.
- **Macro** – Risk that wider market, economic, commercial and financial risks can impact the Company's ability to service clients, their demand for consultancy and technology services and, therefore, the Company's own performance and financial position.
- **Quality of service** – Failure to maintain quality of service on client delivery engagements.
- **People** – Risk of failure to attract, incentivise and retain the best people with the right capabilities across all propositions, levels and geographies. A failure to undertake effective succession planning for key roles could also adversely increase this risk and impact performance.
- **Business strategy** – Risk that the Company responds inadequately to changing market factors, including technological advancements, and strategic growth opportunities, including acquisitions. The success of the Group depends on continuing to develop a proposition that best serves its clients.
- **Security** – Risk of cyber-attacks, security breaches and data mishandling, leading to consequent risks to client data, loss of integrity or availability of core data.

STRATEGIC REPORT (CONTINUED) FOR THE PERIOD ENDED 31 MARCH 2025

Section 172 statement

Under Section 172(1) of the Companies Act 2006, a director of a company must act in the way that they consider, in good faith, would be most likely to promote the success of the company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to

- The likely consequence of any decision in the long-term,
- The interest of the company's employees,
- The need to foster the company's business relationships with suppliers, customers and others,
- The impact of the company's operations on the community and the environment,
- The desirability of the company maintaining a reputation for high standards of business conduct, and
- *The need to act fairly between members of the company*

The following disclosures describe how the directors have had regard to the matters set out in Section 172(1)(a) to (f) and forms the directors' statement under Section 414CZA of the Companies Act 2006

Engagement with key stakeholders

The Directors consider the Company's key stakeholders to be its employees, clients and the communities in which the Company operates. The Directors also recognise other stakeholder groups including suppliers, industry bodies and competitors. Engaging effectively with all these stakeholder groups strengthens the Company's business relationships and decision making and, therefore, supports its long-term success.

Employees – the Company recognises that attracting, retaining and developing talent is critical to its success. It is committed to providing a rewarding workplace with a strong, inclusive and meritocratic culture. Engagement with employees takes place through feedback frameworks, mentoring, training opportunities, competitive remuneration, promotion opportunities and internal networks.

Clients – the Company's success depends on helping clients address their challenges and capitalise on opportunities. It focuses on building long-term relationships supported by senior-level engagement, regular satisfaction monitoring, ongoing dialogue and roundtable discussions, and the sharing of market and industry insights.

Communities – supporting community development reflects the Company's values and growth objectives. The Company seeks to create a positive social and environmental impact through responsible business practices and engagement with local organisations.

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE PERIOD ENDED 31 MARCH 2025

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

1 General information

Actium Bidco (UK) Limited (the "Company") is a Company limited by shares, domiciled and registered in the UK. The registered number is 15736419 and the registered address is 60 Gresham Street, London, EC2V 7BB, United Kingdom.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

In assessing the Company's ability to continue on a going concern basis for a period of at least 12 months from the approval of these financial statements (the "going concern period"), the Directors considered the Company's projected cash flows, access to intercompany funding from other group entities, cash liquidity and existing borrowing facilities.

Notwithstanding the Company's net current liabilities position as at 31 March 2025, the financial statements have been prepared on a going concern basis. The ability of the Company to settle its liabilities as they fall due within the going concern period is therefore dependent on the Company's ultimate parent company not seeking repayment of the amounts currently due to other companies controlled by the group. As with any company placing reliance on other group entities for financial support, the Directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so. The Company also has access to additional funding through other group entities, via the group's revolving credit facility.

The Directors have therefore considered the cash flow forecasts prepared for the wider group, which support the ability of the group to provide ongoing support to the Company through the going concern period. These group cash flow forecasts cover the going concern period and are based upon the Board-approved budget for the group and have been appropriately sensitised, as further disclosed in the consolidated Actium Topco (UK) Limited financial statements for the year ended 31 March 2025. These forecasts demonstrate the group has sufficient resources to settle liabilities as they fall due.

After careful consideration, the Directors have a reasonable expectation that the Company's existing resources, supplemented by the support of the wider group, are adequate to meet its requirements over the going concern period. On this basis, the Directors have adopted the going concern basis in preparing the financial statements.

ACTIUM BIDCO (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.4 Exemption from preparing consolidated financial statements

The Company is a parent company that is also a subsidiary included in the consolidated financial statements of a larger group by a parent undertaking established under the law of any part of the United Kingdom and is therefore exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006

2.5 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges

2.6 Interest income

Interest income is recognised in profit or loss using the effective interest method

2.7 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument

2.8 Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.9 Pensions

Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the Company in independently administered funds.

2.10 Current and deferred taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits, and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.11 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

ACTIUM BIDCO (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.11 Tangible fixed assets (continued)

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method

Depreciation is provided on the following basis

Computer equipment	- 3 years
--------------------	-----------

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss

2.12 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment

2.13 Preference shares receivable

The Company holds euro-denominated preference shares issued by Actium Holdings Limited, with a total subscription amount of €52.2m. The preference shares accrue a cumulative dividend at an annual rate of EURIBOR plus a margin. The dividend accrues and compounds over time to the extent it is not paid, and is payable in full on redemption.

The preference shares are redeemable in full in 2031. In accordance with IAS 32, the preference shares meet the definition of a debt instrument, as they give rise to a contractual right to receive cash from the issuer. The existence of both a fixed redemption date and a fixed return means that, in substance, the preference shares represent debt instruments rather than equity investments.

The preference shares are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, in line with IFRS 9. Accrued dividends on the preference shares are recognised in profit and loss within interest receivable.

The euro-denominated balance is retranslated into pounds sterling at each balance-sheet date, with any resulting foreign exchange gains or losses recognised within interest income or expense.

2.14 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.15 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.16 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method

2.17 Financial instruments

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below

Financial assets and financial liabilities are initially measured at fair value

Financial assets

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets

Fair value through profit or loss

All of the Company's financial assets other than those which meet the criteria to be measured at amortised cost or fair value through other comprehensive income are subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses being recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset

ACTIUM BIDCO (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.17 Financial instruments (continued)

Debt instruments at amortised cost

Debt instruments are subsequently measured at amortised cost where they are financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling the financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Amortised cost is calculated using the effective interest method and represents the amount measured at initial recognition less repayments of principal plus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

Debt instruments at fair value through other comprehensive income

Debt instruments are subsequently measured at fair value through other comprehensive income where they are financial assets held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Equity instruments at fair value through other comprehensive income

On initial recognition of an investment in equity instrument, the Company may make an irrevocable election to designate the financial assets as at fair value through other comprehensive income, providing that it is not held for trading nor is it contingent consideration recognised by an acquirer in a business combination to which IFRS 3 applies.

Impairment of financial assets

The Company recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised or at FVOCI. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company always recognises lifetime ECL for trade receivables and amounts due on contracts with customers. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 MARCH 2025

2. Accounting policies (continued)

2.17 Financial instruments (continued)

Financial liabilities

Fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss, when the financial liability is held for trading, or is designated as at fair value through profit or loss. This designation may be made if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise, or the financial liability forms part of a group of financial instruments which is managed and its performance is evaluated on a fair value basis, or the financial liability forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at fair value through profit or loss. Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability.

2.18 New accounting standards and interpretations

As the Company was incorporated at the start of the current period and this is the Company's first set of financial statements, the accounting policies set out above were adopted for the first time in the period. As such, there were no changes in accounting policies in the period.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The directors consider there are no critical accounting judgements or key sources of estimation uncertainty.

The Company has access to a £50.0m revolving credit facility (RCF), which is available to support general corporate purposes, including working capital requirements. The RCF can be drawn and repaid flexibly until its maturity in February 2031 and accrues interest at a variable rate linked to SONIA. As at 31 March 2025, £3.5m had been drawn under the facility.

Amounts owed to group undertakings falling due within one year primarily relate to loans with Actium Midco 3 (UK) Limited, the Company's immediate parent, and Alpha Financial Markets Consulting Group Limited, one of the Company's subsidiaries. These loans are repayable on demand and bear interest at an arm's length rate. Notwithstanding this, the Directors do not expect the lenders to demand repayment within 12 months of the reporting date.

14. Creditors: Amounts falling due after more than one year

	2025 £000
External term loans (net of loan arrangement fees)	136,782
Amounts owed to group undertakings	29,275
	<u>166,057</u>

In August 2024, the Company borrowed £142.0m from a syndicate of external lenders under a senior facilities agreement. The proceeds, net of fees, were used to fund the acquisition of Alpha Financial Markets Consulting plc. Following drawdown, £44.0m of the loans was redenominated into euros (€52.2m). The euro-denominated loan is retranslated into pounds sterling at each balance sheet date. The loans bear variable interest rates linked to the relevant benchmark rate for each currency. Accrued interest on the Facility B term loans is included within accruals (note 13) and is settled in cash on a regular basis. The term loans are repayable in August 2031. Loan arrangement fees of £5.1m were incurred at inception of the facilities agreement. These fees were deducted from the loan proceeds received and are presented net against the carrying amount of the loans. The fees are amortised to interest expense over the term of the loans using the effective interest method.

Amounts owed to group undertakings falling due after more than one year relate to loans with Actium Holdings Limited, with a fixed repayment date in 2031. These loans bear interest at an arm's length rate.
